PRIMITIVE, "ODD & CURIOUS" MONEY

THE COLLECTION OF HARRY M. BOTTENFIELD

NASCA is extremely pleased to be able to offer this splendid primitive money collection. This very important field, a "keystone" of numismatic science, has unfortunately been somewhat neglected in this country since the demise of the Schulman Coin and Mint firm. Although a large and growing number of collectors in the U.S. are entering and studying this field, the paucity of better material on the market has been discouraging. We hope the present offering will reverse this trend and help re-establish a strong "odd and curious" market.

Harry M. Bottenfield was a well-known Chicago numismatist whose passing earlier this year saddened many of us. Especially fond of unusual numismatica, he assembled a large collection of counter-stamps; porcelain, glass, wood, leather and other unusual-material coins; and "Odd and Curious." This collection is outstanding in several respects, not only for its size and breadth (representing all geographic areas), but for the careful selections made by the collector, avoiding mere "antiquities", with few exceptions acquiring only **genuine** articles of **demonstrable monetary purpose.**

Highlighting the collection are:

1) Several **fabulous African Manillas:**

2) A huge assortment of **Korean, Chinese, Japanese and Annamese amulets:**

3) An excellent selection of **Siamese** pieces; and

4) A very large group of **Chinese Sycee silver** (including **two** 50-Taels).

Items are attributed to two major works: A. Hingston Quiggin's **Primitive Money** (1949, repr. 1963); and the Hans Schulman 1967-68 Fixed Price List (abbreviated **S/FPL).** Several references are made to various Schulman auctions. Collectors may also find of value fixed price offering in Spink's Numismatic Circular (NC), April, June and September, 1974.

Items of uncertain antiquity or genuineness — of which there are few — are qualified in the descriptions, as are non-monetary pieces. Estimates are based on old prices, and we have often seen much higher asking prices.

We are sure collectors will recognize the outstanding opportunity this collection affords. In a field where pedigree assumes a greater-than-normal importance, Harry Bottenfield's name is one of the best. And the opportunity to buy at **public auction** sale should never be undervalued.

AFRICA

3379 **Lot of 23 miscellaneous items.** **($75-Up)**

1) Silver bracelet, 531gm., hand-engraved. 2). **Togo.** Stone money. S/FPL #358-62 (at $15-40). Quiggin pl. 3, #3. 3). Ivory tusk, about 3½ inches. 4-10). Kissie Pennies. Etc. Several unusual items in this lot. This is the lot where we get "picked off".

3380 **Three old cowbells and one old cannon ball.** **($25-Up)**

Former owner describes as 16th century, the cannon ball being Portuguese, stolen by crew to trade with natives . . . All very old, but probably impossible to confirm as money, or as 16th century.

3381 **Native arrow**, bamboo, iron head. Also **souvenir sword. ($40-Up)**

The arrow is broken. Poisoned tip. The sword comes in a scabbard, fastened at bottom with a 1957 East Africa 1/10 Penny. More than 2 feet long (in scabbard). Not monetary.

3382 **Iron spear head.** 18". Some rust, but a good example of a principal trade medium. **($35-Up)**

NORTH AFRICA

3383 **Jointed Bracelet in Manilla form.** German silver. About 5 inches, 31 oz. **"Fine"** or better. **(Photo) ($75-Up)**

Several purely ornamental engravings, but each end has a carefully engraved **Star of David.** A hole drilled through behind each knobbed end, allowing bracelet to be strung shut. Made by North Africans for trade in Nigeria? Possibly quite rare.

WEST AFRICA

3384 **"Aggry beads."** Approx. 11" string of 16 beads, plus two large bauxite beads. Quiggin Frontispiece #6 (in color), S/FPL #221 ($75). **($100-Up)**

Very colorful, unique beads, likely introduced by Venetian traders in the 1400's. This is the very beautiful mosaic or "eyed" type. A photo will not do this beautiful red-white blue-and-yellow piece any justice at all. Cf. Spink's, April, '74, priced £3 **each bead.**

ASHANTI TRIBE (EQUATORIAL AFRICA)

3385 **Ca. 1850. Brass ankle bracelet.** 3 bells. 4½ inches. S/FPL #245 (6 bells, $45). **($65-Up)**

Added are five popular **Ashanti weights.** Three have abstract designs, but one is a **swan,** with **feather detail,** almost 2" long. Bronze and brass.

CAMEROONS

3386 **Trade beads, etc.** Some strung into nice bracelets (2), with bells and other ornaments. **($45-Up)**

CONGO

3387 **King Manilla. Huge copper bracelet, rare type** 5¼ inches, 2¾ lbs. S/FPL #271 (8½ lbs., $150). Probably **"VF"** for piece. **(Photo) ($100-Up)**

A marvelous piece! Made from a copper rod, square, about 3/4-inch (twisted) 180 degrees and then fashioned into bracelet shape. All four sides are fully engraved with deeply cut, interesting designs. The S/FPL piece is not engraved on the bracelet's inside.

3388 **As last.** 3 3/4 inches, 18½ oz. Only turned 90 degrees, more crudely and simply engraved (on three sides only). Still a **rare type. "Fine."** **($60-Up)**

3389 **Huge copper bracelet.** About 5¼ inches, about 1¼ inches thick (ends thicker). **4 lbs. Rare this large.** Better than **"VF",** couple flat spots. **(Photo) ($75-Up)**

Not "turned." The engraving is crude but attractive.

GHANA

3390 **19th? Cent. Huge copper bead,** more than 50mm. diameter, about 30mm. high. Serrated design. **(Photo) ($35-Up)**

KATANGA

THE FAMOUS WIFE-BUYING CROSS

3391 **The Katanga wife-buying cross.** Quiggin Pl. 1, #3. Almost 8 inches. **($75-Up)**

Red copper with brown and green patina, nice condition. Quiggin, p. 79, indicates these were no longer being made in 1910. One of the great African currencies chiefly used for wife buying, valued at about 3-4 Francs.

NIGERIA

3392 **(Before 1800?). Brass "Needle Money."** 114mm. **"VF". (Photo) ($50-Up)**

Fulani tribe, thought to have been worth about a Shilling. Crude, simple ornamentation. Added: A smaller (71mm.), curved needle, possibly same tribe. **2 Pcs. in the lot.**

3393 **(Probably pre-1800). West Nigeria. Brass bell,** long shank, ring at top. Very old and **Very Fine,** rare. **(Photo) ($50-Up)**

3394 **King Manilla.** 5½", **18 oz.** S/FPL #313 (10", 3 lbs., $50). **"Fine." ($50-Up)**

Square brass or "yellow-bronze" rod, ½"-thick, made into a horse-shoe shape, top side crudely ornamented.

3395 **Very large copper bracelet (manilla) of the Akure tribe.** 4¼ inches, **23oz.** S/FPL #336 (4½", 4 lbs., $75). Rare. **"VF". (Photo) ($100-Up)**

Crudely, but very nicely engraved. Spink NC, Sept. '74, offers a six-pound piece for £35.

3396 **Akure Manilla.** As last, but 3½ inches, **15 oz.** , much poorer ornamentation. **($40-Up)**

Spink NC, Sept., '74, £25.

"COIN" JEWELRY

3397 **Bracelet made from brass Calabar rod.** 3 inches, in form of a closed circle. **($40-Up)**

Calabar rods, brass and copper, were perhaps the most important African currency. This ornately decorated bracelet demonstrates a typical use. A bar 16-17" long, about 3/8" thick, was doubled to make an 8"-length, then fashioned into a 3" ring and engraved as a bracelet.

3398 **Manilla.** Cast brass, 3½", **6½ oz.**, thick ends, **Knob-like** ornaments, etc., near ends. **"Fine." (Photo) ($50-Up)**

A very unusual Manilla type, in that it is cast, that the ornamentation is raised (and included in the mold, not hand-engraved), and the Knob-like ornaments are a departure from the usual manilla shape. **Possibly quite rare.**

3399 **Two interesting Manillas. "VF". ($40-Up)**

1) Copper 3 3/4", **12 oz.** Engraved to simulate coiled wire around a core (another popular currency form). Attributed to the Tera Tribe. 2) 3-inch brass bracelet, intended to simulate three rods joined into a bracelet. Cast, hand-engraved ornamentation. See Johansen p. 18, fig. 8.

3400 **Lot of four Manillas,** made from thick (approx. ½") rods. All about 3 inches. "F-VF". **($60-Up)**

Three brass with thicked ends: one copper, ends not thickened. All have simple, hand-engraved ornamentation.

3401 **Lot of Manillas, Calabar rods, etc. 14 Pcs. ($75-Up)**

1) Calabar rods, one each brass and copper, about a yard long but bent like croquet hoops. Quiggin pl. 2, #2. 2) Brass Manillas, made from such rods. Ornamented, ends not thickened, 3-4 inches. 3). Circular brass bracelet made from Calabar rod, 3 inches, quadruple thickness. 4). Needle-money or "Anyun." Quiggin p. 88, fig. 24. 5 Pcs. 5). Flat brass "Manilla" of the Tera Tribe, Bornu Province. 3 inches. S/FPL #309 ($20). 6). Pair of Manillas, copper. Note: Calabar rods were priced $10 on S/FPL (#343).

TANGANYIKA

3402 **(Early 20th Century). Hoe Money.** Heart-shaped, iron, 8" across, 4½" shaft, total length 12". Quiggin p. 97. **($60-Up)**

Collectors ticket notes: **About 3 lbs.**, current until 1930, hut tax was 2 hoes or 3 Rupees, Called "Jembe" or "Mbako." Compare S/FPL #357 and 363, related items at $50 and $100.

AMERICAS

3403 **Aztec-period and later. Various items. 12 Pcs.** **($65-Up)**

1-5) Mexican (Aztec) copper "hoe money." Two of the large, thin type, and three smaller, thicker "Axe Money" pieces. See various writings of Pradeau. 6). Peru. Small copper cone. **Ex. Col. Sigler.** Plus six U.S. items, some rare (e.g. silver beaver, ca. 1750, for Indian trade, Ex. Dillingham at about $20), but we cannot authenticate. Some of the Atzec pieces in this lot were offered in Spink NC, April '74, for £20-£175.

ORIENT

3404 **Lot of 20 different amulets, 25-35mm.** 18th-early 20th century. Most depict horses. Brass. **($75-Up)**

3405 **19 different pieces, similar to last.** Some are smaller and more modern. **($60-Up)**

3406 **Lot of 20 amulets.** 19th-20th Century, some comparatively recent. Some odd-shaped. **($65-Up)**

3407 **Huge lot of Amulets.** 19th-20th Century, a few may be older. About half are 19th Century. Many large and unusual pieces, most with excellent descriptions. **72 Pcs. ($250-Up)**

ANNAM

3408 **(19th Century). Rectangular, boat-shaped bar of 10 Taels (10 Lang).** Good quality silver. Compare Krause pg. 1715, Schroeder 171-73, etc. **Rare. VF. (Photo)** **($150-Up)**

112mm., stamping on edges only, all punched at time of manufacture. The stamps are in Chinese (Annamese), with two stamps of roosters. Can probably be attributed further. Krause's prices are too low; compare Schulman, 2/7/74, #959 ($150). Also S/FPL #210 (Schroeder 171) at $175! This piece has an accession number taped on, and some test chops on bottom.

3409 **"1788-1945." Huge bronze "500 Dong."** 5 inches. Square center hole. **Pieces of 10 different rulers.** Interesting fantasies. **10 Pcs.** **($150-Up)**

May be worth more because of the large size. Also, perhaps very difficult to obtain as a set. Former owner valued at $25 each in his old inventory book.

CHINA

3410 **19th Century. Brass multiple-cash form School Prize "coin."** 53mm. **(Photo)** **($50-Up)**

Four characters around square center hole/character above giraffe below center hole. Hand-engraved, ornamental borders.

3411 **(1851-61). 20 Cash. Fukien Province.** Cr. 10-10. Contemporary counterfeit? **Fine.** **($25-Up)**

3412 **Wooden display board with 11 amulets (some Annamese).** Mostly 18th-19th Century manufacture. All large (up to 71mm.) and interesting, fully described. **Fine to XF. ($125-Up)**

3413 **Lot of perhaps 1000+ Cash.** Many interesting "patinas", perhaps 50 varieties. **($30-Up)**

P.S made of **clear plastic** in the '60's, many different colors.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

CHINESE SYCEE SILVER

China avoided the manufacture of silver coin until the 1890's. Nonetheless, silver was the chief currency of China for centuries. In addition to foreign silver coins, local ingots in various shapes, called "Sycee", were produced, some dating before the advent of Western trade. These were produced for banks, companies, rich individuals, etc., and circulated as proper coins or as bank transfers, and were also used as currency reserves. They were valued by weight. Specimens as small as ¼ Tael (About 8-9 gm.) and as large as 100 Taels (8 lbs.) are known, although Sycees more than 50 Taels can be classed as non-collectible.

An excellent article on Sycees can be found in Krause-Mishler, page 239 (the prices, however, are completely unrealistic, as Sycees are seldom offered today for less than $30). Col. Sigler's 1943 ANS monograph is also excellent.

Sycees were in the news, recently, when the British Museum acquired the collection of Edward Kann from a California dealer, who unselfishly kept the collection intact. With Sycee silver due to receive more scholarly attention, we expect collector interest to continue growing. It may be a long time before this kind of offering, whether by auction or private treaty, is repeated. Our thanks to Ms. Rose Chan Houston of the American Numismatic Society for her help in identifying several of the pieces.

3414 **Sycee. ½ Tael (19.3 gm.)** Hunan Province. **VF-XF,** casting flaw, tape. **($35-Up)**

3415 **Sycee. "Dollar" (7 Mace+, 26.3 gm).** Stamped with single character "Pu." **($35-Up)**

3416 **As last, but 28.0 gm.** **(35-Up)**

3416A **Sycee. Tael. (36.5 gm).** Assay stamp "KU" only. **VF,** tape. **($35-Up)**

3417 **Sycee. Tael (38.0 gm).** Stamped with Chinese character "LI". **($35-Up)**

3418 **Sycee, Tael (?). 43.8 gm.** Fukien Province. **VF.** **($45-Up)**

3419 **Sycee. 5 Taels (192.4 gm).** No stamps. "Shoe" or "boat" shape 30 x 55mm., 25mm. high. Appears to have gold impurities. **Abt. XF.** **($75-Up)**

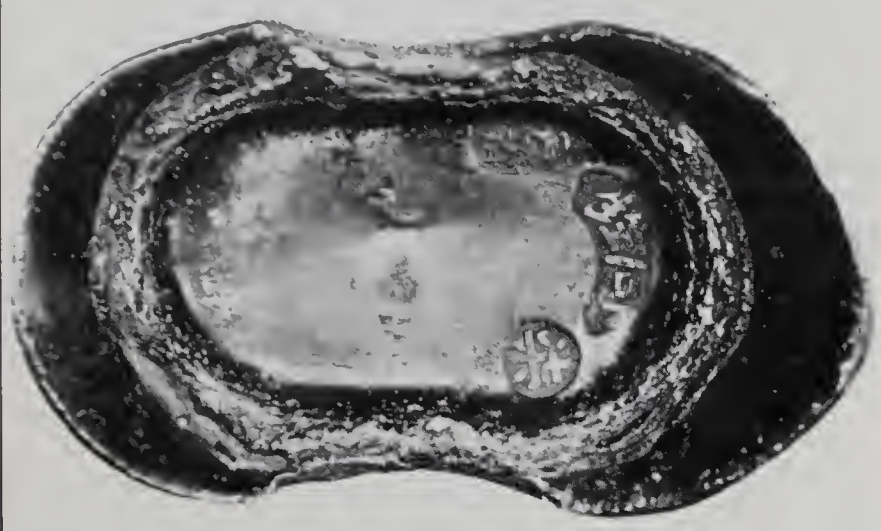
THE FABULOUS 50 TAELS SYCEE
THE LARGEST COLLECTIBLE SYCEE-

3420 **(1875-1908). 50 Taels. "Shoe" or "boat" shape.** Hupeh Province. Krause page 239. Possibly identical type to S/FPL #75. Very Fine and **Very Rare. (Photo)** **($750-Up)**

112mm. across top. **71½ oz.** (avoir) (just over 2,000 gm.). Two long, rectangular stamps identifying the Emperor, etc., and also reading "made in the Province of Hupeh." In the center are smaller stamps, "Hong Kong", "Nanking", "Shanghai", etc., presumably identifying "branch offices" of the bank or other issuer.

A somewhat smaller 50 Taels of Shansi brought $1,000 in the 6/28/73 Schulman auction (est. $550-750). We believe that record price is due for a strong challenge. Indeed, $1,000 is barely double this piece's bullion value.

A SECOND 50 TAELS SYCEE



3421 **(Prob. 1850-1900). 50 Taels. "Shoe" or "boat" shape.** Very similar to Sigler 3. **Extra Fine and Very Rare.** **($750-Up)**

125mm. across top. **4 pounds** (avoir) exactly. Stamped "T'ung Sheng" (company) in curved indent, "Kung Hou FU" (silversmith) in rectangular indent, and "Seven" (maker's "control" number) in round indent. Fragmentary stamp near center. A lovely, toned piece, 73mm. high. The piece photographed in Sigler (ANS Num. Notes & Monographs, 1943) has different names, but the shapes and positions of the stamps are the same.

VERY SCARCE "KETTLE-DRUM" 10 TAELS

3422 **1877? 10 Taels (12¼ oz. avoir).** Scarcer, Kettle-drum shape. Szechuan Province. **VF** or better. Fairly rare example of Sycee. **(Photo)** **($125-Up)**

Stamps identify Province and silversmith. Also the year Ting Ch'ou, which in the cyclical Chinese dating system could be 1937, 1877, 1817, etc. Ms. Houston believes the style of the inscription is typically Republican, indicating 1937 as the date of manufacture. Krause, however, states that Sycees were banned in 1935. A piece bearing both the maker's name and an **illegal** is certainly of exceptional interest!

A SECOND "KETTLE" 10 TAELS

3423 **(Prob. 1850-1900). 10 Taels.** Kettle-drum shape. **($110-Up)**

12 oz. (avoir). Two identical rectangular stamps, "Heng Feng Ch'ing" (silversmith, or possibly the company). Some small nicks, scratches, chopmarks.

3424 **Sycee. 5 Taels (180.5 gm). Scarcer, "Kettle-drum" type.** Stamped with maker's name only. **VF,** tape. **($90-Up)**

Round top, about 42mm., about 24mm., high. Suspicious cut about 5mm. below top, almost completely around the edge. Could this have been hollowed out and refilled with non-precious metal? Although this was a common enough practice with dollars, it would be most unusual for a Sycee, which mainly circulated among banks. **An interesting piece!**

A FINE RUN OF UNSTAMPED SYCEE

(All in nice condition, all boat-shaped).

3425 **10 Taels. 23 oz.** (avoirdupois). **($100-Up)**

3426 **10 Taels. 12+ oz.** (avoir.) **($100-Up)**

3428 **8 Taels. 276.7 gm.** Unusual denomination, not in Krause. **($85-Up)**

3429 **8 Taels. 274.6 gm.** Unusual . . . **($85-Up)**

3430 **5 Taels. 185.3 gm.** **($75-Up)**

3431 **3 Taels. 126.3 gm.** **($55-Up)**

3432 **3 Taels. 124.7 gm.** **($55-Up)**

3433 **3 Taels. 93.4 gm.** **($50-Up)**

3434 **2 Taels. 69.3 gm.** **($40-Up)**

3549 **1783. 8 Macutas.** Cr. 21. **Rare. VF.(Photo)** **($100-Up)**
Type as above. Excellently struck and quite attractive. We did not grade this VF+ because of a tiny edge nick by "C" of "AFRICA" Krause price is low at $200.

3550 **1783. 10 Macutas.** Cr. 22, Dav. 6. **Rare. VF. (Photo)** **($250-Up)**
Type as last. Light scratches, central reverse, also very lightly cleaned. Nearly as scarce as the 12 Macutas, and disproportionately cheap by comparison.

3551 **1783. 12 Macutas.** Cr. 23, Dav. 5. **Rare. VF** or better.**(Photo)** **($500-Up)**
Crowned Portuguese arms and titles of Maria I and Peter III (joint rule, 1777-86)/value in wreath, "AFRICA PORTUGUESA". Actually very close to an XF grade, but as the flowers on reverse are typically slightly weak, and as Lisbon mint silver of this period is rather flat in appearance, we are grading this lower than the wear dictates. Krause $500 in VF, but old auction records are 50% higher.

3552 **1796. 4 Macutas.** Cr. 28. Scarce. **VF.** Plus scarce copper coin. **2 Pcs.** **($100-Up)**
Maria I, alone, 1786-99. Type as above except obverse legend. Krause $85. The copper coin is a **1785 Macuta** (44mm), counterstamped with Portuguese arms to double value. Cr.1ba. Coin **F-VF,** stamp crude but complete, XF or better. Krause $37.50 VF.

3553 **1796. 6 Macutas.** Cr. 29. Very Scarce. **VF.** **($100-Up)**
Type as above. Moderate planchet porosity, evident in the fields.

3554 **1796. 10 Macutas.** Cr. 31, Dav. 8. **Rare. VF-XF.** **($175-Up)**

Type as above. Minor legend weakness. Not as scarce as the 12 Macuta, but comparatively underpriced. Krause $185 Fine.

3555 **1796. 12 Macutas.** Cr. 32, Dav. 7. **Rare. VF. (Photo)** **($625-UP)**
Maria I, alone, 1786-99. Type as above except for obverse legend change. Actually better than VF (see comments to 1783 12M, above), and thus quite attractive when considered as only VF. Krause $500, but much higher auction records exist, going back several years, for this rare crown.

3556 **1814. ½ Macuta.** Cr. 34 ($15, VG-F). **VF-XF.** **($30-Up)**

3557 **1851. ½ Macuta.** Crowned sphere/value. Cr. 75. Sharp **AU,** traces of red. **($45-Up)**

BATTHYANI

ONE OF 300 STRUCK

3612C **1768. Thaler.** Cr. 2a, Dav. 1183. Rare. **Choice XF** or better. **(Photo)** **($750-Up)**

Carl, prince 1764-72. Ornate bust/arms on cross, double garter-chain, mantled and crowned. A simply beautiful coin, very much underrated. There is a faint scratch on the shoulder, and a tiny nick at 12:15 reverse rim. An example brought DM 855 (+15%) in Vienna in March, '76. Now, more than 2½ years later, we confidently expect this far superior specimen to approach the $1,000-mark.

SALZBURG

3613 **1642. Klippe ¼ Thaler. Fine. 2 Pcs.** **($90-Up)**

Paris von Lodron, 1619-53. Large, thin planchet struck with round, 30mm dies Madonna and child/St. Rupert. One piece with a slight mount trace on upper corner. High German auction records, even in these grades.

Paris Von Londron 1619-53. Madonna and Child/St. Rupert. The edge has been smoothed in places, although the piece does not seem to have been mounted.

Sigmund III, 1753-71. Clerical bust/crowned mantled arms. Very attractive for the grade, as this is actually a choice XF coin with the highest parts showing cabinet friction.

THE EXCESSIVELY RARE COIN OF "INDEPENDENT AZORES"

3617A **1826. LXXX Reis.** Copper, 24½mm, 5.27 gm. Cr. 9.5, Neumann 21265, Numismatische Zeitung 1834 p. 152. Not in Maillet, Brause, Duby, or the Portugese catalogs; not in the Grogan or Meili sales. **XF. (Photo)** **($2,000-Up)**

Hovering eagle, "AZORES INDEPENDEN. IHLA TERCEIRA. 1826."/anchor, fasces with liberty cap, and grape bunch (leaves on stem) over the value, a star below. Obverse slightly double-struck, reverse more so. A planchet pit in center reverse causes a weak spot on the lower part of the fasces. Some fade mint red.

We can see no reason for Craig's assigning this piece to Joao VI, whose death in 1826 set off a constitutional cirsis in Portugal. Pedro, Emperor of Brazil, had forfeited his birthright of succession by accepting the "foreign" throne—or so it was argued. After a two-year reign, Pedro reached an agreement with the opposition Miguelites: He would abdicate in his daughter's (Maria's) favor, with the new Queen to marry Miguel. Not the least of the ensuing complications was Miguel's seizuer of the crown, after which Mary set up a court in exile on the liberal stronghold Terceira. Miguel, an ardent human rights violator, lost his diplomatic support in Europe, and his army proved even less capable than the Liverals' forces; Maria became de facto ruler of Portual in 1834.

Except for the 1829 cast 80 Reis and the English-struck 1830-dated V and X Reis, the few non-Miguel Portugese coins of this exciting period are exceedingly rare. To our knowledge, the presently-offered coin has **never been drawn or photographed before**. Although dated the exact time and purpose of its issue remain a numismatic problem. As the Zeitung only began publication in 1834, it was probably not a "current issue" when reported, and surely was struck before Miguel's fall. Likewise, its small size should preclude its issuance after the large 80 Reis of 1829. As no ruler is named, Azores 1826 cont. it was most likely struck after Joao's death in 1826, or Pedro's abdication and Miguel's ascendence in 1828 (before Maria established her exile court on the island).

It is useless to compare this coin with other rare copper coins, such as Venezuelan octavos, Philippines revolution coins, etc. which bring $4,000-up. Nonetheless, this is **probably the rarest obsidional copper coin of the 19th century**. Although far commoner, the Ionian Isles 5 Gazzette of 1801, sold in September for $1,900, makes a valid price comparison. This coin came from Switzerland and may be the only example ever to have reached the U.S.

RARE PATTERN CROWN

3639 **1896. Pattern 5 Francs.** Silver. Krause (1979 ed.) pg. 1747- **unpriced. Choice Unc.(Photo)** **($675-Up)**

Draped, aged bust of Leopold II/lions supporting arms, "5 Francs" on banner, etc. A complete restyling of the regular issue 5 Francs (1887-96), which sells for $500 or more in this grade. There is an edge nick at 3:00 obverse, where the coin was dropped. Otherwise, the coin is nearly perfect, with nicely toned, lovely matte surfaces. The gem specimen in WR1 brought $750. With our Wayte Raymond sales now concluding, it is unlikely collectors will have another shot at this rare type, particularly at public auction, for many years.

RARE "ROYAL" 8 REALES

3643 **1661-P/E. 8 Reales.** Fully round "royal" cob showing all design. **Very rare. F-VF,** usual hole.**(Photo)** **($800-Up)**

Philip III, 1621-65. Castles and lions/pillars over waves. **Calbeto did not have a Royal of this year.** These were struck in limited numbers and are not known for all years. The series is similar to the "corazon" (heart-shaped cobs) series of this mint.

A comparable 1682 Potosi round 8 Reales (although with a murky, Guatemala 1838-40 counterstamp in one obv. quadrant) brought $850 in the 8/16/78 Coin Galleries auction (lot 1105.) This piece of an earlier King may be more valuable. As holed corazons have brought $3,000 at auction, we think these royals are undervalued. We only located one auction record for a royal 8 Reales for 1977-78.

3644 **(16)76-P/E. Cob 8 Reales.** Calbeto 1064 ("very scarce, 10-25 known"), CC 8748 (11,000/24,000 Pesetas), Vicenti 499 (16,000). **Fine,** some flat spots. **($100-Up)**

3645 **1766-P/V. Cob 8 Reales.** Calbeto 1225, CC 13164, Vicenti 969. Crude, **Fine** for coin. **($65-Up)**

Joseph I, 1750-77. Draped, laureate bust/crowned arms on cartouche. Apparently struck in the 1850's as the under coin looks to have been Unc. or nearly so. Plain edge. Light die rust, as would be expected. Presumably struck at Rio, where such funny business is known to have transpired. Probably worth in the low hundreds.

3659 **1828-SP. 80 Reis.** Cr. 128b. **Choice VF.** **($35-Up)**

3660 **1851, 1869. 2000 Reis.** Cr. 190 (15), 198 ($18.50). **VF-XF. 3 Pcs.** **($60-Up)**

BRITISH GUIANA

3663 **1809. ½ Guilder.** Cr. 7. **XF.** **($40-Up)**

George III bust/crowned "½" in wreath. Typical strike, faded mint color, hairline obverse scratch.

3664 **1809-1816. Mixed lot.** Cr. 4 (2), 5 (2), 7, 11, 13. Avg. **About Fine.** **($50-Up)**

Plus 1891 4d (2), one AU. Original prices total $70. **9 Pcs.**

3665 **1813. Large copper 1 Stiver.** Cr. 5, Pr. 29a. **Bronze Proof. Rare.** **($250-Up)**

Draped, laureate bust of George III (by Wyon)/crowned value in wreath. Royal mint. A Choice, Brilliant Proof brought $335 in WR2. This piece has a couple small obverse spots.

3666 **1813. 1 Stiver.** Cr.5. **Bronzed Proof.** **($125-Up)**

Draped, laureate George III bust by Wyon/crowned value in wreath, "COLONIES OF ESSEQUEBO & DEMARARY TOKEN". Krause (1977) $125, worth more today.

3667 **1813. Copper Stiver, Half Stiver.** Cr. 5,4. Brown **Unc.** Choice Red and Brown **Unc. 2 Pcs.** **($75-Up)**

Scarce in Unc. Krause prices in F, VF and XF ($35 pair in XF). The very nice ½ Stiver is labeled "proof" on the old English dealer ticket, but we think not.

3668 **1816.¼ Guilder.** Cr.11, Pr. 21. **Unc./AU,** a couple light scratches. Plus a duplicate in **XF. 2 Pcs.** **($75-Up)**

3669 **1816. Guilder.** Cr. 13, Pr.11. **Nice Unc.** **($200-Up)**

Similar to the 1816 2 Guilders. Well struck. Really nice surfaces; would rate as Choice Unc. but there is some dull yellow toning on obverse, mixed with more attractive iridescence on the balance of the coin. Possibly nicer than the WR3 specimen which brought $230.

3670 **1816. 2 Guilders.** Cr.14, Pr. 8. **Rare. Unc.(Photo) ($500-Up)**

George III, draped and laureate bust by Wyon/large "2", crowned and within wreath. **Mintage only 15,000** (one-year type). **Byrne did not have an Unc. specimen.** Lustrous and really quite a nice mint state coin, but a small dig below "A" of "DEMERARY" removes this from the class of the Choice Unc. example in WR2, which nearly doubled our estimate at $785.

3671 **1836. Guilder.** Cr. 25. **XF.** **($35-Up)**

BRITISH HONDURAS

3672 **1799-Mo/FM. 8 Reales with "GR" counterstamp.** Unofficial? Gibbs 1557, Krause "C2a". **VG/F.(Photo)** **($300-Up)**

Script "GR" monogram, uncrowned, in 6x5mm rectangular indent (corners rounded, letters raised). The Krause listing is apparently based on the Gibbs specimen. In that sale, this stamp, on a French coin, brought $75. The same coin was resold in Schulman's May,

'74 Becker-Seidl sale ($85). This mark is **not recorded in Pridmore**, an omission which **strongly suggests great rarity. Krause prices $300 VG, $400 Fine.**
Similar counterstamps incorporating a crown are definitely attributed to British Honduras. They were locally made in an attempt to induce natives to accept silver coins (by copying the stamp which appeared on an acceptable trade item, cutlass blades). These constitute a private, unofficial coinage. The coin offered now has every appearance of belonging to the 1810-18 period of the other recognized stamps, and its attribution to this territory seems secure.

3672A **1894. 5 Cents.** Y.2. **Choice Proof. (Photo)** **($175-Up)**
About 25 Proofs struck. Remick (1970) $125. Traces of old cleaning beneath gray-violet toning.

3674 **1912-14. Cent.** Y.10. Rare date (and type). **Abt. VF.** **($100-Up)**
Bust of George V/value. Mintage only 50,000 (only 125,000 for the three years Y.10 was issued). Two tiny edge nicks, numerous light digs and scratches. Krause $150 VF, WR1 $170 VF/XF.

THE EXCESSIVELY RARE 1936 SPECIMEN DOLLAR
ONE OF 2 (?) KNOWN

3695 **1936.** Dollar. One-year type. Specimen. (Matte Proof). **(Photo)** **(——)**
Obverse: Crowned, dressed bust of George V, who died early in this year; die prepared from the matrix of 1911 Dollar, of which only one lead and two silver strikes exist. These are the only two Canadian dollars with this design. On this Proof, traces of the matrix guide lines, used in placing the legend, are still visible.
Reverse: The familiar canoe design.
From the Winthrop collection sale, lot 2224 ($5,000), where it was stated: "We can account for only 2 specimens of this date with a third piece reported but not confirmed." The piece is accompanied by an authentication letter from J.A. Haxby, curator of the Bank of Canada's National Currency collection, stating "We have records of fewer than five pieces."

The previous lot in the Winthrop sale was a 1935 Specimen Dollar, described as being in similar condition to the 1936 specimen, but not as rare. Six specimens, including two in the Bank of Canada, were cited, and a letter from Haxby states "We have records of fewer than 10 pieces." (Apparently the Bank of Canada did not have a 1936 specimen?) The 1935, although only half as rare as the 1936, brought $6750 (in the opinion of some, the 1936 "regular issue" is more desirable than the 1935 "commemorative" because of its unique matrix link to the 1911 Dollar.) We expect that time will correct the "error" of the 1975 Winthrop sale, and that the piece will bring substantially more than the $6750 price of the commoner 1935 specimen. In our last sale, a 1921 Specimen 50 Cents and 1916-C Sovereign (AU-50) brought $16,000 and $13,500. We feel this demonstrates regained confidence in the market for "superstar" Canadian coins (due in no small part to our policy of unreserved, public sale). The buyers of those lots, a dealer from Canada and another from England, indicate new breadth in the Canadian market, once the exclusive province of "northerners." We are certain that world crown collectors will now find this lot to be very attractive. With respect to the condition of the coin, it was described as "once rather harshly cleaned, leaving numerous hairlines" in the Winthrop catalog (the 1935 coin was similarly described). We believe these "hairlines" are simply the brushlike effect normal to Canadian specimen issues of this period, and that the Winthrop description is erroneous on this point. We hope interested collectors will be able to personally examine this **very beautiful** and **excessively rare** world crown. It may never again be offered in a competitive market setting.

A VERY RARE OFFICIAL INTERNATIONAL MONETARY PATTERN STRUCK IN GOLD

3919A **1867. 5/DOLLARS/25 FRANCS.** Internatinal Monetary essay of the Paris mint. VG3703. **Quite Rare. Proof. (Photo)** **($2,500-Up)**

Bust of Napoleon III (by Barre) in plain field/inscr. Unusual in two respects: 1) The Metal "gold" ("OR") is an important part of the legend; and 2) it is one of very few international monetary patterns issued by a real government.

VG prices this at 30,000 Francs (in 1942). By comparison, a pattern Louis d'Or, 1774, has the same price and a few extremely rare U.S. colonials are price higher. The only other comparable prices are for crown-sized pieces of gold. Obverse field hairlined from rough cleaning.

3919B **1867-1917. Group of three coins.** **($25-Up)**

3921 **(1881). "Module 25 (mm.)" Pattern.** Antiqued silver. VG 3962 (nickel). **AU.** **($150-Up)**

Apparently struck as metallic essais. The design is a reproduction of the Naples gold ducato of the occupying French King, Louis XII (in Naples 1501-3 or 1501-4), Friedberg 826. This is one of the most famous and highly valued (Fr. $18,000) coins of the renaissance, and these essais, being also official restrikes, are much sought after.

DESCRIPTION OF THE NATIONAL MEDALLION.

Executed by Royal Command by M. Vechte.

The Portrait of Her Majesty Queen Victoria occupies the centre of the Medallion. M. Vechte explains the allegory thus: "The principal figure at the top of the Medallion is Genius, attended on his left by Justice, Truth, and Science, [illegible] to an Academy of Artists, and on its [illegible] background [illegible] Genius holds the emblem of the successful Artist, and [illegible] the merit of the successful Artist, and [illegible] Genius holds the wreath to receive the Artist's name."

The Medallion is executed by means of Electrotyping. It was found that the artistic merit of the design would be lost if the impression on silver, as originally intended, had been adopted as given [illegible] to the Artist.

The Medallion is awarded in the [illegible] National Competition of the students of all the Art Schools of the United Kingdom, and is the prize for successful art [illegible] by the [illegible] Art Department Committee of Council on Education.

OFFICIAL VICTORIA CORONATION MEDAL—IN GOLD

4070 **1838. Official Coronation Medal by Benedetto Pistrucci.** Struck in **GOLD.** 37mm. Prooflike **Unc. (Photo) ($2,000-Up)**

High-relief portrait/three goddesses extending crown to the young, seated Queen, British lion behind her. We are exceptionally fortunate to be able to offer this rare medal, perhaps the most important British piece of the century, for the second time in two auctions. The example in our Wayte Raymond 3 sale brought $2,800. The present lot is not quite as nice, having light hairlines, a very small spot on reverse, and a small depression in the flan by "TO" of "VICTORIA". Also, there is a flan flaw which resembles a nick on the Queen's chin. These minor imperfections, however, cannot lessen the rarity and historic importance of this piece, and as it is still a beautiful medal, we expect bidding to approach the WR3 price.

4071 **1838-1913. Small consignment of British Copper.** All **Unc. ($150-Up)**

Farthings: 1840 (brown), 1843 (red), 1881H. Half Pennies: 1838 (brown), 1841 (red to brilliant), 1895. Pennies: 1891 (brown), 1901 (BU), 1911 (BU), **1912-H** (nice, mostly red to brilliant), 1913.

The Famous Gothic Crown

21.8gm. "CT" monogram. Spring-loaded. A gilt silver coin holder brought $63 in WR3.—this is surely more interesting and valuable.

4075 **N.D. (19th Cent.) Quack Medical pendant. Plus 8 other medal(let)s. ($25-Up)**

70 x 53mm., "LONDON GALVANIC GENERATOR." Sold as is, no returns.

4075A **Huge iron uniface medal of an unidentified General from the period of the Crimean War—circa 1840to 1865. (Photo) ($175-Up)**

Uniface plaque more than **11" in diameter** containing a fine high-relief bust of a man in a general's uniform, probably British. Datable from the beard style to around 1850 - cf. the coins of George V of Hannover and others. At top, in a small "alcove" designed as a hanger for the piece, a woman mourns by a flag and a cannon — presumably the general was slain in battle. Bottom of obverse reads "REGIST'D." Excellent condition, interesting style, portrait should be identifiable with enough research.

4076 **1860-. Lot of copper coins. About 1150 coins. ($100-Up)**

Farthings: 1860-. 14 Pcs. Halfpence. 1860-. About 120 pcs, some Unc. back to 1911. Penny. Victoria to 1967. Added: 25 1964 Jamaica Halfpence, Unc.

4077 **1892. Royal Aquarium. Silver medal,** 45mm. **XF.** **($50-Up)**

Two mythical fish draped around Neptune's trident/hand-engraved within wreath: "PISCATORIAL EXHIBITION 1892 ROYAL AQUARIUM LONDON." Lovely toning. Reverse center lightly scuffed.

THE UNIQUE 1956 PROOF SET INCLUDING FIVE UNRECORDED PROOF COINS

4080 **1956. Proof Set: ¼d, ½d, 3d, 6d, 1s (English), 1s (Scottish), 2s, Half Crown. The only 1956 proof set in existence!** Furthermore, **the 6d through Half Crown are unrecorded;** and some or all of them may be unique. **(Photo)** **(——)**

We are at a loss to explain the existence of such a set. Normally proofs are produced in large quantities for public sale, in limited numbers for internal use, or sometimes as unique pieces for the British Museum. This set, based on rarity alone, is one of the most mystifying lots we have cataloged. It is consigned by an American collector and, were there any other sets or single proof pieces, numismatists in England should have previously recorded their existence (the ¼d, ½ and 3d are known and considered rare to very rare).

It is very seldom that one is privileged to catalog unique coins of a major nation, and it is a still rarer privilege to be the first to publish them. We recall with pride our discovery of the 1718 copper Farthing (WR1, #1701, $2900). The single drawback is the difficulty of estimating such lots. We note that Remick priced the 1948 set, mintage "20 to 30", at $4200 (in 1970), and a similar 1947 set at $2700. Both of these are rare enough that Seaby and Krause don't even list them; neither being unique, the 1956 set should be worth substantially more, perhaps twice as much. Any of the upper values might command $1000-up as single pieces, but as a set they have added value. Our best guess is that bidding will concentrate in the $7500-$12,500 range.

We must emphasize the importance of this **offering by public sale.** Seldom are items of this nature offered without "safeguards", i.e. by private treaty, or at auction with high (and often hidden) reserves. Witness the long dealer-to-dealer history of the 1954 Penny, which has not been priced under $25,000-or owned by a collector-in a decade and a half. Similarly, the 1936 Edward VIII patterns, recently offered as **part of an incomplete set,** were consigned to auction by a dealer owner, reserved at $24,000 to $110,000 each. If this lot is purchased by a dealer, it can be expected that it will be offered for a very high price, probably over $20,000. We urge interested parties to bid for this set, while it is open to competitive, marketplace bidding.

AN EXCELLENT SELECTION OF WEDGWOOD PORTRAIT PIECES

For more than two hundred years the world has admired and collected the superb porcelain work known, from its developer, as **Wedgwood.** Familiar to most of use today in its dintinctive two-color form - **white figures on blue, green, red** or **black** fieds - it has taken several other forms during the past centuries. Portrait medallions or plaques of famous men of the day or of the past have been executed for the company by many well-known artists throughout the years, and often form our most accurate pictures of these people. All are both decorative and historically interesting. **Many are extremely rare, especially the early ones and the original colored wax artists' models.** We are very pleased to be able to offer a choice group of Wedgwood pieces, including both protrait and Classical "cameo" types, single-color black portrait medals, and intaglios. In addition, there are excellent portrait medallions in bronze and ormalu from the 18th and 19th Centuries by other artists not connected with the Wedgwood firm. Many of these pieces are attractively mounted in old frames.

4085A **Two round convex medallions,** probably 19th Century, showing Classical Greek women: one holding a wreath and a dove, the other carrying a basket of flowers. Each is white figure on blue field, 52mm. From their shape, the pieces may have been designed to inlay into a box lid. **2 Pcs.** **(——)**

4085B **Oval portrait medallion,** white on blue, 4¼" x 3⅜". The Roman Emperor Domitian, head left, laureate, as on coins. The medallion is convex and was probably intended for mounting on a box lid. Excellent detail, high relief. **(Photo)** **(——)**

4085C **Oval Black portrait medallion,** 3⅜" x 2¾". High-relief bust left of an older man in a high-collared military uniform with many decorations and orders. Uniform style is mid to late 19th Century, probably (though not definitely) Russian. Not one of the Czars, but quite possibly Grand Duke Nicholas. **(Photo)** **(——)**

4085D **Oval portrait medallion.** 4" x 3", white on deep blue. Fine large three-quarter facing bust of an unknown clergyman, mid-19th Century (judging from the style of both his clothes and his sideburns.) A marvelous piece of workmanship. Reverse imprinted "Wedgwood Eturia" with pre-firing holes for stand mounting (piercing the field plate but not the figure.) **(Photo)** **(——)**

4085E **Oval black portrait medallion.** 3" x 2½". The Duke of Wellington, extremely high relief bust right, as designed by John Henning in 1813. Two small holes drilled down from top edge to meet sloping groove in back (for hanging.) "Wellington" written on reverse in very old ink: Fine portrait of the man who beat Napoleon. **(——)**

4085F **Oval portrait medallion,** 4" x 4¼", white on deep blue. The Duke of Wellington, an excellent low-relief facing half-length bust with arms folded, designed by H.P. Briggs in 1837. Wellington is wearing the Order of the Golden Fleece. Small hole drilled through field above head for hanging. **(Photo)** **(——)**

4085G **Round black portrait medallion,** 2¾". Endymion Porter, groom to the bedchamber (a cubiculis) to Charles I of England, supporter of the King during the Civil War, member of the court of Charles II before the Restoration. An excellent piece, modelled after the somewhat larger medal made in 1635 by Jean Varin. Probably quite an early impression - sharp details, and the planchet is slightly wavy. **(Photo)** **(——)**

4085H **Round black portrait medallion,** 3½". John Wesley, founder of Methodism. A superb piece, modeled after a medal made circa 1791. Portrait bust right in robes, with long hair; the whole surrounded by a wide border done in floral motifs, two cherubs at top holding palms and supporting a crown. The edge is beveled toward the reverse, with a fairly deep groove beneath it on that side and a concave reverse center. Two small holes for hanging drilled through top edge. **(Photo)** **(——)**

4085I **Oval portrait medallion,** 4" x 3", white on blue, in black wood frame. William Pitt, 1st Earl of Chatham, by Flaxman, 1778. Excellent portrait of the famous statesman responsible for repeal of the Stamp Act. **(Photo)** **(——)**

4085J **Oval portrait medallion,** 5½" x 4", white on blue, in black wood frame. Mrs. Sarah Siddons as Lady Macbeth, by Flaxman, 1782. One of the very finest portrait medallions produced by Wedgwood, a superb piece of sculpture. Mrs. Siddons was probably the best and most prominent actress in England during the late 18th and early 19th Centuries. **(Photo)** **(——)**

Extraordinary Group of Original Wax Models By Flaxman

The portrait artists at Wedgwood, as elsewhere, normally worked in hard wax, at least for the initial modeling (Flaxman is believed to have developed a special wax which he probably used for final versions - hard enough for moulds to be made directly from it.) It is likely that most work was done from careful drawings of the person whose portrait was being modeled, rather than sculpted directly from life, probably to reduce the time required by the rather important personages who were modeling! Though a fair number of different wax models are known, any one design is extremely rare. Working models, especially those from which moulds were to be taken, were natural bare wax; some were, however, hand painted after moulds had been made from them. Modeling of the wax was normally done on a glass plate.

The present group of four wax models, hand painted, consists of portraits of three of England's naval heroes: Admirals Howe, Nelson, and St. Vincent. Three of the portraits (those in black and gilt frames) are signed by John Flaxman, one of the greatest portrait artists working for Wedgwood in the 18th Century; the fourth, with only traces of a signature remaining (perhaps obscured by the paint), appears to be his work also, though the painting work was probably done by a different person that the one who painted the first three. **The four pieces came from an auction held by Beresford Adams, Chester, England, June 14-16, 1965,** Lot 6, probably part of the property of Brigadier C.H.V. Vaughan of "Nannau" Estate in Wales (held by the same family from its construction in 1780-1796.)

The models present certain problems: most known wax models are the actual working models for portrait cameos which were actually issued. Wedgwood did, indeed, issue portrait cameos of Howe, Nelson and St. Vincent, but the portraits are known to have been modeled in 1798 by John de Vaere, another prominent sculptor of the firm. Close comparison of these wax models shows clearly that they were derived from the same drawings, but they differ subtly in details. It is extremely rare to have an opportunity to compare the work of two famous sculptors working from the same drawing at the same time. It seems fairly clear that Flaxman also prepared portraits of these three subjects, but that his models were rejected by Wedgwood in favor of those by de Vaere: presumably they were later handpainted for display and eventually found their way into the hands of the Vaughan family. We know of no other wax models of rejected designs.

4085K **Hand-painted wax model, on glass, of Admiral Richard Howe** (Commander of the British Fleet in American waters during the Revolution.) By John Flaxman, signed on truncation. Mounted in a somewhat chipped old black and gold wood frame. The glass plate on which the bust is mounted has cracked and been reglued without damage to the bust. Hair and face natural coloration, coat is deep blue. **(Photo)** (——)

4085L **Hand-painted wax model, on glass, of Admiral Viscount Horatio Nelson.** By John Flaxman, signed on truncation. Mounted in somewhat chipped frame like the last. Hair and face natural coloration, coat deep blue, sash of the Order of the Bath reddish, other decorations yellow. **(Photo)** (——)

4085M **Hand-painted wax model, on glass, of Admiral Sir John Jervis,** Earl of St. Vincent. By John Flaxman, signed on truncation. Mounted in the same sort of frame as the last two. Face reddish-tan, hair reddish-brown, coat deep bluish-brown, ribbon light blue (presumably the Order of the Garter, made lighter color for more contrast.) **(Photo)** (——)

4085N **Hand-painted wax model, on glass, of Admiral St. Vincent.** Faint traces of a signature on truncation, apparently obscured by paint. Glass cracked, was reglued and bust glued to glass at that time. The crack and resultant glue spreading have obliterated the name (which, in the three earlier pieces, had been painted on the glass below the bust) of the subject. In a gilded wood frame wrapped on back and sides in heavy paper, probably when the glue was used on the glass. Subtly different from the preceding specimen, somewhat more filigree detail added and epaulette reshaped. Paper on back originally labeled "St. Vincent" in same hand as others; later crossed out and relabelled "Marlborough", under which title it was sold in the 1965 auction. Face deep reddish, hair light brownish, coat reddish-tan, ribbon bluish. Probably another try by Flaxman, stylistically closer to the preceding than to the issued one by de Vaere. **(Photo)** (——)

4085O **Five black intaglios, ranging from 14 x 11mm. to 17 x 14mm. Authenticated by Wedgwood Museum Curator** as being types from the original catalogue (1759-1780.) Numbered on backs (incuse): #65 - Cicero; #133 - Mercury keeping the flock of Admetus; #190 - Charles de Secondat, Baron Montesquieu; #199 - Theseus slaying the Minotaur; #227 - the ancient Greek poet Anacreon. Designed for seal rings. A very handsome group of miniatures. **5 Pcs.** (——)

4085P **Large round plaque, 7¼", white on black.** Woman reclining on rocks under tree, torch dangling from her left hand, book below at left. From Wedgwood's famous Portland Vase decorations, apparently remade as a separate mould for plaques. A really lovely example of the finest decorative Wedgwood. **(Photo)** (——)

4085Q **Oval plaque, 4⅜" x 3⅜", white on black.** Minerva, with shield, shaking hands at altar with Liberty (supporting Liberty cap on pole), standing figure of Prosperity with cornucopiae and wheat ears behind them, all in laurel wreath. Legends beneath figures, on ribbons: "Justice and Liberty, 1914-1919." Reverse stamped, before firing: "Pte. H. Whitmore, Naval Reserve." Mounted on gold mat in walnut (?) frame (Slightly chipped at top left.) This rare plaque was the Wedgwood firm's special issue, given only to those members of the firm who served in the military during World War I and then returned to their employment with Wedgwood. Carefully and most beautifully executed, especially the drapery on the figures. **(Photo)** (——)

4085R **Gold ormolu or heavily gilt brass portrait bust,** uniface, 5¼" high. William III, King of England. Fine, bareheaded bust right with long, curly hair, draped with a cloak over armor which shows a lion's face on breast and another on shoulder. Definitely not the Wedgwood bust by E. Burch. Mounted on black velvet on a very old board with cut-out recess, loosely held in newer light-golden wood frame (somewhat chipped but easily replaced). An excellent piece of work by an unknown artist, probably late 18th or early 19th Century but perhaps earlier. Somewhat worn on high points, apparently through polishing repeatedly in the distant past (when it was probably used as a decoration on something.) We have never seen another like this. **(Photo)** (——)

4085S **Framed set of four portrait busts,** each about 4" high: Torquato Tasso, Francesco Petrarch, Ludovico Ariosto, and Dante Alighieri, four great Italian poets. These are electrotypes, made in the summer of 1841 by the Rev. Edwin Sidney and bronzed by "Smee's" or Sheele's Process (research provides both names.) Probably the work of W. Boswell, Carver & Gilder, Norwich, England, whose store card is attached to the back of the frame. Mounted on old, pale green paper in a superb frame of golden wood resembling bird's-eye maple. Busts are executed in admirable style and were probably from originals intended for either Wedgwood-type plaques or metal ornamental decorations. We have never seen any of these four busts before. **(Photo)** (——)

Great Wax Seal of Queen Victoria

4085T **Ochre wax seal, nearly 6½" wide and one inch thick,** probably from a Royal Charter. Obverse shows the Queen enthroned, holding Orb and Sceptre, figures of Justice and Religion seated at either side, national arms at bottom, the whole surrounded by a wreath of oak leaves, roses and thistles. Reverse shows the Queen mounted, riding left, attended by a groom, crown at top, trident (rule of the seas!) amongst oak leaves at bottom, "Victoria Dei Gratia Britanniarum Regina Fidei Defensor" around. Eight strands of the cords originally binding the Seal to the Charter remain at top. Housed in a copper-varnished tin box stamped with a crowned "VR", probably original, which has a segment cut out of the inner half's edge to allow the cords to pass through. Such Seals, never very numerous and usually attached to documents which are still in the possession of the governments, corporations or institutions to which most of them were sent, are very rarely encountered in public sales. This is particularly true of this very large size Seal. A magnificent piece for the British specialist! **(Photo)** **(——)**

The National Art Competition Medallion by M. Vechte

4085U **1861 (1857). The large (5½") National Medallion** designed by M. Vechte in 1857 for awards in the annual national competition of students in Art Schools throughout the United Kingdom. Uniface electrotype, as were all of them, in original blue-velvet-lined box of issue labeled "Science and Art Department" on cover. **XF. (Photo)** **(——)**

Includes the descriptive card which accompanied the piece, explaining the beautiful and elaborate allegorical scenes which surround the bust of Victoria. The shield at lower left - intended for this - is inscribed to Henry Meesham in 1861. Has been repeatedly polished during the past Century, but is beginning to retone now that it has reached numismatic channels. One of the most elaborate and attractive examples of Victorian medallic work.

GRIQUATOWN

COMPLETE SET OF THE EXTREMELY RARE GRIQUATOWN COINAGE

Issued in 1815-16 by the Rev. John Campbell. The first coinage for South Africa. The only coinage ever of a Christian missionary. Struck by Halliday. Recalled after about two years circulation and melted down. Remick writes: **"Only a very few specimens are known of the higher denominations."** (The Fonrobert catalog of 1878 illustrated a **holed** 10 Pence). The copper coins were thrown away by the natives when they turned brown.

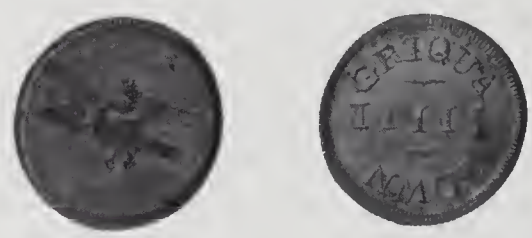
These are among the most important coins of Africa, and among the rarest coins of the Commonwealth.

4090 **N.D. (1815-16). 10 Pence. Silver. Extremely Rare.** Wayte Raymond 1, Atkins 1, Remick T6, Krause km5. **Unc.(Photo)** **($1,200-Up)**

Dove with olive branch/"10" between "GRIQUA" and "TOWN". Krause $1200 ($900 XF). A proof in WR2 sold for $2100, or $300 over its current Krause listing.

4091 **As last. Abt. VF. (Photo)** **($500-Up)**

As one of the few undamaged pieces in existence, this should sell for a price fairly close to that of higher-grade survivors.



4092 **N.D. (1815-16). 5 Pence. Silver. Extremely Rare.** Wayte Raymond 2, Atkins 2, Friedberg 2, Remick T5, Krause km4. **Unc. (Photo)** **($1,000-Up)**

Similar to above, value written:"IIIII". Also lists at $1200 in Unc. in Krause.

4093 **As last. Unc. (Photo)** **($850-Up)**

A number of tiny scratches, otherwise choice.

4094 **N.D. (1815-16). ½ Penny. Very Rare.** Wayte Raymond 3, Atkins 3, Friedberg 3, Remick T4, Krause km2. **VF. (Photo)** **($300-Up)**

Badly cut planchet. We believe the coin was struck this way. Ex-F.C.C. Boyd.

4095 **N.D. (1815-16). ¼ Penny.** Raymond 4, Fr. 4, Remick T3, Krause KM1. **AU. (Photo)** **($500-Up)**

"Pillar dollar"dies on a basically rectangular flan. Counterstamp is XF. Krause values the counterstamp on this type 8 Reales at $125 Good, $200 Fine.

4098 **1821-NG/M. 8 Reales.** Cr. 72. **XF.** **($90-Up)**

Fernando VII. Draped bust/crowned Spanish arms between pillars.

4099 **1824-NG/M. Reales.** Cr. 95. **XF+.** **($150-Up)**

Central American Federation. Sun streaming rays over five mountains/tree. These Federation 8 Reales were bid **very actively** by **numerous dealers** on the floor during WR3. Could top $200. **First year of issue (1824-47).**

4100 **(1838-40). 8 Reales.** Cr. 124 (?). Coin **VF**, Stamps **XF (Photo)** **(——)**

A Peru 8 Reales, 1835-La/MM, counterstamped obverse and reverse with a sun over three mountains in 6mm circular depression. We have only traced this stamp on **one** side of cob 8 Reales. The stamp is crudely engraved and evidently an old forgery. Compare LOT 2751 of WR1 (also photo'd).

CHOICE COUNTERSTAMPED ISSUE

4101 **(1838-40). 8 Reales. South Peru 8 Reales (1838-CUZCO /MS, Cr. 180a)** counterstamped "Sun over mountains" on obverse, "Star, sunface, bow, and arrows" on reverse. Cr. 134.7. Coin **Abt. XF**, stamps probably **Unc.(Photo)** **($250-Up)**

Krause $150 VF, most other host coin varieties valued $100 VF. Craig, however, prices the type, regardless of host coin, at $100 for F-VF counterstamp. We hope collectors as well as dealers will appreciate the **exceptional piece** here offered.

4102 **1846-NG/AE. 8 Reales.** Cr. 95. **Scarce year.** Nice **AU.** **($200-Up)**

Standard Central American Republic type. As noted in Krause, "AE" over "MA" and "CREZCA" over CRESCA. Krause $225 in only XF, this should sell over $250.

VERY RARE GROUP OF ROYAL MINT PATTERNS

The following five lots (all from the 1974 ANA auction) are all 1 Cent patterns, struck in the Royal Mint, London. Each is 31mm., with a plain edge. All are rare and it is most unusual to offer so many at one time. Two similar items brought $1125 and $1150 in WR3.

4114 **1862. Pattern Cent.** Pridmore 278. Nice, reddish-brown **Proof. (Photo)** (——)

Victoria. Bust, similar to regular issue/value in wreath, central circle. ANA lot 599.

4115 **1862. Pattern Cent.** Pr. 290. **Proof,** toned an even brown. (——)

Four Chinese characters/value in wreath, central circle, lion to right and crossed-club-and-hammer to left of date., ANA lot 602.

4116 **1862. Pattern Cent.** Pr. 297. **Proof,** toned an even brown. **(Photo)** (——)

Obverse similar to last, but the die altered by adding St. George to center, and an anchor, lion, "T.G." and "R.M." to the angles of the characters. The reverse is very distinctive for this series, having the value, country name and date in a beaded circle, surrounded by a wreath and pair of **dragons**. T.G. R.M. = Thomas Graham, Royal Mint. ANA lot 601.

4117 **1862. Pattern Cent.** Pr. 300 **(brought $1150 in WR3).** Red and brown **Proof. (Photo)** (——)

Obverse as last (Pr. 297)/value in wreath; central circle, within which a crown; T. G. and anchor to left and R.M. and lion to right of date. ANA lot 600.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

4118 **1863. Pattern Cent.** Pr. 274. Nice brown **Proof,** some red. **(Photo)** **(——)**

Obverse as India Half Anna (1862). Reverse as regular issue, only with central dot, and of course the regular issue is smaller (28mm., not 31mm.) ANA lot 603.

4119 **1863. Pattern One Cash.** Pridmore 309. **Proof, (Photo)** **($175-Up)**

Very similar to the currency One Mil coins of the same size. Iridescent, with red and blue toning predominant. WR2=$210.

4120 **1863. One Cash. Pattern.** Pridmore 305. **Brilliant Proof. (Photo)** **($175-Up)**

Size and design similar to the regular-issue One Mil. **This denomination exists only as patterns.** Some spotting. Ex-F.C.C. Boyd.

4122 **1863-1937. Collection of 10 Cents, all different, 26 Pcs,** 21 Victorian. Avg. **XF-AU.** **($200-Up)**

1866, 1874-H, 1876-H, 1888, 1889, 1893, 1897-H, 1898 are Unc. Original prices totaled $220; these may bring more today.

4123 **1866-1902. Collection of 20 Cents (6) and 50 Cents (3). Fine.** to **AU.** **($150-Up)**

20 cents: 1866 AU; 1882-H VF-XF; 1887 XF, light rev. scratches; 1893 AU; 1894 F-VF; 1902 F/VF. 50 Cents: 1891 F; 1893 AXF, small chopmark on neck; 1893 Vf.

20 Victorian coins including 1885/5. Also 1867 Unc., 1872/68-H XF, 1874-H Unc. Some later Unc. coins have tarnish. Original prices totaled $198, but now worth more.

4125 **1867. Silver Dollar.** Y.8. Nearly XF, toned. **($80-Up)**

Coronet bust of Victoria/English and Chinese inscriptions.

4126 **1876-H. 20 Cents.** Y.5. **Unc.** **($150-Up)**

Victoria, diademed bust/Chinese and English inscription. The obverse is very slightly dull, with a very little bit of tarnish and some cabinet friction. The reverse is unqualified Unc. with the iridescent toning that is somewhat characteristic to this series. Very tiny edge bump at top reverse.

4126A **1879. 20 Cents.** Y. 5. Pr. 27A. Rarest date of series. **Nice Proof. (Photo)** **(——)**

Krause $400, but only $135 in Unc. Since Remick (1970) priced this at $160 Unc., we are inclined to believe Krause's price is too low. Lovely blue, red & gold toning; small thin scratch in reverse field at 10:00.

4127 **1883. 20 cents. Unc.,** light yellow toning. **($100-Up)**

4128 **1902. 20 Cents.** Y.12. **Unc.,** fully brilliant and lustrous. **($150-Up)**

HUNGARY

POSTHUMOUS THALER OF FERDINAND III HRE

4129 **1658-KB** (Kremnitz mintmark). Dav. 3198. (Posthumous issue of Ferdinand III, Holy Roman Emperor, died 1657). **Abt XF. (Photo)** **($250-Up)**

Laureate bust, Hungarian shield and Madonna break legends at 9:00 and 3:00/imperial eagle. A death-year 1657 coin of this type, cleaned VF with scratches and a small gouge, brought $105 in WR3. This coin has a couple very tiny planchet flaws near the forehead, but should be worth 2½ times as much for condition alone, hence our estimate. **However, a check of Battenberg-Klenau and our own records does not show any recent sales for the latter, post-humous years of this type.**

TYPE NOT IN CRAIG

4130 **1745-KB.XV Krajczar.** Not in Craig. **VF.** **($75-Up)**

INDONESIA

4175 **18th-19th Century. Native tin coins called "pitjis".** Not in Craig or Krause. About **220 Pcs,** plus broken coins. **(——)**
All round, uniface with square center-holes. Almost 150 are Palembang (Millies 206-7), of which about 100 will grade VG, some up to VF. Almost 50 are of a very crude, seemingly uninscribed type (all with corrosion). Another two dozen pieces in mixed condition, though mostly uninscribed, are probably several unpublished types of Cheribon.

Similar to the Penny. Also with slight cabinet friction. A **bronze** proof in good EF condition brought $210 in WR3. Mackay's new book prices this three times as high as our estimate. Much undervalued.

4190 **As last.** An identical **Proof in silver.** **($240-Up)**

Mint state, but fairly considerable cabinet friction.

4201 **As last,** currency strike (Pr. 19). **AU.** **($75-Up)**

Probably a mishandled Unc. Krause $65 XF, $135 Unc.

AN HISTORIC OFFERING OF PAPAL BULLAE

The Papal Bullae, the large lead seals attached to the Pope's documents and addresses, are as popular with collectors as the coins of the Popes. Indeed, they are the only numismatic pieces generally available for the Medieval Popes (the medals of these Popes being made much later).

Each piece has the Pope's name and ordinal on obverse, and the busts of Sts. Paul and Peter, separated by a cross, on the reverse. Grades are given to suggest the relative quality of each piece.

We can only assume that this is the most important offering of these scarce pieces in a U.S. auction in modern times. **All bullae are very scarce, some may be extremely rare.** We hope collectors will take full advantage of an offering that may never be repeated.

4242 **(1145-53). Eugenius III. Abt. VF.** **($75-Up)**

4243 **(1216-27). Honorius III. Fine.** **($75-Up)**

4244 **(1227-41) Gregory IX. Fine.(Photo)** **($75-Up)**

4245 **(1241-54). Innocent IIII. Good/Fair.** **($40-Up)**

4246 **(1254-61). Alexander IIII.** Bold **Fine.** **($75-Up)**

4247 **(1261-64). Urban IIII. Good,** holed thru center. **($20-Up)**

4248 **(1265-68). Clement IIII. Abt. VG.** **($40-Up)**

4249 **(1251-76). Gregory X.** Nice **VF.** **($85-Up)**

4250 **(Sept., 1276-May, 1277). John XXI. Doubtless quite rare.** Cracked, but intact. **($40-Up)**

The only Portuguese pope, noted physician, etc. Thought to have issued only one bull. Killed when a ceiling collapsed.

Each of these bullae has its own fascinating historical background which, regrettably, would be impractical to cite for each piece. Our estimates are far below the market value of the rarer pieces.

4251 **(1281-85). Martin IIII. VF/poor,** with a crack. **($30-Up)**

Multicolored original string intact.

4252 **(1285-87). Honorius IIII. VF+,** fine style. **($85-Up)**

4253 **(1316-34). John XXII. VF.** **($75-Up)**

A very slightly finer example (VF+) brought $63 in WR2, which we thought was a very good buy. More significantly, it was the only auction appearance for a lead bulla we can recall in the last four years.

4254 **(1342-52). Clement V. Abt. Fine.** **($65-Up)**

4255 **(1352-62). Innocent VI. VG/VF,** greenish lacquer. **($50-Up)**

4257 **(ca. 1410-15?). John XXIII. The Anti-Pope. VG. (Photo) (——)**
One of three Popes at the time! A worldly, "worthless", craftman, eventually imprisoned, it is doubtful he took time from his politicking and travelling to affix his seal to many encyclicals. Probably quite rare, this piece illustrates how difficult it is in this country to assign individual rarities to the various Pope's bullae.

4258 **(1447-55). Nicolas V.** Faintest patina, but **superb! (Photo)** **($65-Up)**

RARE TYPE

4259 **(1464-71). Paul II.** Bold but patinated, **VG-F. (Photo)** **($100-Up)**
Pope, enthroned, receiving kneeling visitors/Sts. Paul and Peter, **seated**. Our estimate is just a guess, collectors envelope marked "Very Rare".

4260 **(1471-84). Sixtus IIII. Fine.** **($50-Up)**
Top and bottom chipped away (where string emerges from the seal), thus rather oval-shaped.

4261 **(1484-92). Innocent VIII. XF.(Photo)** **($70-Up)**
Even white patina, obverse scratch.

4262 **(1492-1503). Alexander VI. Abt. XF.** **($60-Up)**
Lacquered in a slightly unattractive fashion. A third of Paul's head not struck up.

These are discussed in detail in Spink's NC. The coins are very decent for type, but the stamps, as usual, are a little weak. Possibly the first offering at public sale for these interesting coins. Jamaica was Spanish before 1645, British thereafter.

4459 **1837-CUZCO/BA. 8 Reales,** Sud Peru. Cr. 180. **VF+,** obv. dig. on one star. **($50-Up)**

4460 **1837-BA. 8 Reales,** South Peru. Cuzco mint. Cr. 180. **XF.** **($125-Up)**
Sunface/mountain and castle in harbor. Very interesting type. **Craig $85 VF.**

4461 **1838-BA. 8 Reales,** South Peru. Cuzco mint. Cr. 180a. **Abt. XF.** **($65-Up)**
Similar to above (Cr. 180), but "CONFEDERACION", not "FEDERACION", on reverse. **Craig $65 VF.**

4462 **1838-MS. 8 Reales,** Cuzco, type as above. **Unc.** **($125-Up)**
Very scarce condition (much commoner in XF-AU and all the lower grades). Some planchet roughness evident on half of the surface, and on the ship in harbor on reverse.

4463 **1838-CUZCO/BA. 8 Reales.** Sud Peru. Cr. 180a. **XF.** **(——)**

4464 **1844. 4 Reales.** Mint: "PASCO". Assayer M. Cr. 131.4. Scarce. **VF.** **($35-Up)**

4465 **1854-M/MB. 4 Reales.** Cr. 131.1a (var.). Bold **AU.** Plus two other early coins. **(——)**

4468 **1873. "Box Thaler".** 46mm, bronzed tin, 20 rondelles inside (all architectural). **VF** or so. **($50.-Up)**
Design imitates coins and piece bears legend "RECUERDO DE LIMA-UN SOL". Similar box thalers of Europe now bring over $100-minimum-in our sales. This "Box Sol" is probably much scarcer, and a very unusual Latin American item. Should double, perhaps triple estimate.

4469 **1882. 5 Pesetas. Rare Ayacucho mint.** Y. 30a. **VF+.** **($75-Up)**

Ceres head/arms in wreath. A few minor rim bruises. The edge is plain and has been machine-ground. Still rare, more so than catalogs indicate.

A MAJOR OFFERING OF PHILIPPINE PROOF SETS

½, 1, 5, 20, 50 Centavos, Peso. Y. 14-21. **Each coin a proof-only date with a mintage of 500!** Krause prices total $610. A set in WR1 brought $450. We offer seven **choice, original sets.**

There has been a surge of interest in Philippines Numismatica in the last year. In our WR2 sale, numerous 20th century medals, in silver and even bronze, brought from $100 to $300 dollars each. Early Spanish-era lead and copper coins dredged from river banks have sold for high 3-figure prices. Dealers have been snapping up the loose, proof-only coins which were once seen much more often than at present. With the closing of our Wayte Raymond offerings, the last source of Philippines proofs has dried up.

All the coins in each set are free of contact marks. They are mostly in full brilliance, some being lightly toned. Some of the copper and nickel pieces have light spotting, as is common. Raymond probably bought out the remaining Philadelphia mint inventory in the 1930's; in effect, these sets have been in continuous storage since 1906.

Maria II, 1828-53. Diademed bust right, hair in braided bun, "W.WYON" on truncation/crowned, mantled shield of arms in plain field, "1000 REIS" at bottom. **Actually an unrecorded overdate, 1838/6.** However, considering the **mintage of only 3959 pieces,** it seems possible that all could be from this one recut die. The coin has a small edge nick at 11:30 reverse, and some normal but prominent circulation marks. It is nicely toned and overall still VF. This could well sell for 50% above estimate.

4530 **1841. 500 Reis.** Cr. 107a. **Scarce date. VF+. ($75-Up)**

PORTUGUESE INDIA

AN EXCELLENT OFFERING OF PORTUGUESE INDIAN SILVER

An introductory comment is in order here. A couple years ago a very large collection of Portuguese Indian coins came on the market. Our understanding is that a collector in India sold his massive collection to a London dealer. Also, in the last 5-10 years, coin exports from India in general have increased. Most of what came on the market was low-to-middling quality copper coinage, with occasional lots of later silver coins. Nonetheless, demand for nearly all Portuguese Indian coinage became stagnant. Some early coins which were thought unique in 1914 (when the famous Grogan collection was sold), and many early coins not generally known to exist until now, have languished in dealer stocks. It seemed for a time that coins which were **uncollectable** for over 50 years were now unwanted, victims of a gross misconception that **hoards** of such coinage exist.

Most of the early silver coins (and a good many early coppers) are still quite rare. They do not appear in imported hoards, and new examples of these rare types and dates will only appear on the market when major collections are sold. There are very few collectors in India who have these rare coins. The misconceiption that the market has been flooded with "former rarities" is being overcome. Some strong prices for this kind of material were realized in WR1. We urge smart collectors to take advantage of this public sale of very rare coins.

Our consignor selected these coins carefully, purchasing only pieces with clear dates. These are outstanding pieces because of the amount of detail struck up. Our grading is based on wear, but strike is much more important for these coins.

4544 **N.d. (1685-86). Xerafim.** Grogan. 1390. **Rare. VF. ($100-Up)**

Crowned Portuguese arms in wreath/unusual cross. Very round, uniformly thick planchet. Sharply struck up over almost the entire design. 11.7gms. Grogan knew of only two examples of this type. Struck in the Diu mint.

4545 **1650. Xerafim.** Not in Grogan, similar to the ½ Xerafim, Grogan 1540. **Rare. Abt. XF. ($150-Up)**

Crowned Portuguese arms divide "G-A" cross, date in angles. Nice planchet, very bold on the 80% of the disign which is struck up. 10.6gms.

4546 **1675. Xerafim.** Not in Grogan, nor Spink sale. **Extremely Rare. Fine. ($200-Up)**

Type as above. Grogan does not record any Goa coinage for the 1670's. There are indefinite signs of a "6" under the "7". "G" on obverse not struck up. Local counterstamps on reverse. Should bring an excellent price, due to the clarity of its important date. 10.55gms.

4547 **1681. Xerafim.** Grogan 1545. **Rare. XF/VF. ($125-Up)**

Type as last. "G" not struck up, other less important weak spots. Arabic "12" engraved near reverse edge. 10.55gms

4548 **1681 "star". Xerafim.** Grogan 1546. **Quite rare. XF. ($175-Up)**
A variety of the last lot with a small star after the final digit. Grogan: "Extremely Rare, if not unique." "A" on obverse not struck up, other comparatively minor details are weak. A star is counterstamped on reverse. Three thin X's are lightly scratched in the flat portions of the borders. Except for these scratches, finer than Grogan's plate coin. 10.6gms.

4549 **1682. Xerafim.** Date not in Grogan. **Very Rare. VF. ($150-Up)**
Type as last. "A" not struck up. Faint obverse scratches. Flan crack. Counterstamped with an 8-point star on reverse. 10.6gms.

4550 **1748. Rupia,** Date not in Grogan. **F-VF** but exceptional. **($125-Up)**
Bust of King over date (Joan V, 1706-50), "IOANN-ESVRP"/ Crowned arms on cartouche. Grogan illustrates nine coins of this type, all well-centered strikes on nice, round flans. Only one, however, is a full, clear strike, as this coin is. Considering the quality, and the rarity of the date, active bidding is anticipated. 11.74gms.

4551 **1749. Rupia.** Grogan 1403. **Rare. VF. ($150-Up)**
Similar to last, date added in angles of cross. Grogan: "Extremely Rare, if not unique." Nicely struck on a good planchet. Weak along most of reverse edge. "7" of date obscured by the crude engraving, the other digits being quite clear. 11.7gms.

4552 **1778. Rupia.** Grogan 1741, Craig 225 ($75). Very scarce. **VF. ($65-Up)**
Bust of Jose 1, 1750-77, dividing "1778-RUPIA"/arms. Crude, but mostly on flan. Tops of digits off flan. Several light, uninteresting obverse counterstamps.

4553 **1782. 150 Reis. VF. 1786. Pardao. Fine. 1786. Rupia. F-VF.** Cr. 232, 233a, 234. **3 Pcs. ($125-Up)**
All with accoladed busts of Maria I and Peter III (joint rule, 1777-86)/arms. The 150 Reis in XF brought $65 in WR1.

4554 **Pair of Rupias.** Cr. 242. 1798, 1800. **XF. ($110-Up)**
The "V" on the 1798 is an inverted "A", "8" is open at top; on the 1800, "O" is a "D", "A" is an inverted "V". A thin flan crack thru "GO" on the 1798.

4555 **1799. Pardao.** Cr. 241. Scarce. **F-VF. ($50-Up)**
Maria I, alone, 1786-99. Bust/arms. Well-centered, all details clear.

4556 **1803. Rupia.** Cr. 242, Grogan 1840. **Unc! ($125-Up)**
Type as last except for value. Much luster. Minor weakness on some letters, corresponding to Grogan's specimen. Superb!

4557 **1804. Rupia.** Grogan 1851 (plate). Variety of Cr. 242. **Unc! ($150-Up)**
Type as last, but legend: "DGOA-RUPIA". There is nothing about the coin that suggests the "D" was placed on it by error. It does not occur on any other Goa coin before 1807. **Much finer than Grogan's plate.**

4558 **1807. Rupia.** Type not in Craig or Krause, Grogan 1886. Obverse as Cr. 263, reverse as Cr. 242. **Rare. VF-XF,** nearly all boldly struck. **($125-Up)**
New obverse type showing portrait of Joao VI. Krause prices the normal type of 1807-1817 at $70 in Fine. **Much finer than Grogan plate.**

4559 **1809. Rupia.** Cr. 263. **VF+. ($90-Up)**
Joao VI (as Prince Regent). Bust/arms (oval). Much finer than Craig's plate coin, finer than all but one of Grogan's examples of this type. Krause $70 in Fine.

4560 **1819/8. ½ Xerafim. Cr.** 286, Grogan 1938. Scarce type. **VF. ($50-Up)**
Type similar to above. Centers weak, particularly the reverse, but quite nice otherwise.

4561 **1825. Rupia.** Cr. 288. **1828. Rupia.** Cr. 301. Both **Fine.** Plus third coin. **3 Pcs. ($150-Up)**
The third coin is a Pardao, date off flan, probably 1825 (Cr. 287), VF otherwise. Grades reflect both wear and strike. Craig prices total $235, Krause is higher ($125 in Fine for Cr. 301).

4562 **N.d. (Maria 11, 1828-53). Copper 3, 6, 15 Reis.** Cr. 333, 335, 338.2. Uncommon. Nice **VF. 3 Pcs. ($60-Up)**

4565 **1846. ½ Pardao.** Cr. 348. **XF.** (Craig and Krause $40 Fine). **($75-Up)**

4566 **1846. Rupia.** Cr. 350. **XF. ($75-Up)**
Maria II, 1834-53. Diademed bust/"RUPIA" in wreath. Some luster, mixed with grey toning. Queen's nose weak. A few edge flaws, all but one quite small and none extending into the legend or wreath. Equal to or better than Krause plate. Krause $70 in VF.

4567 **1857. Pardao.** Cr. 363 ($60). **Scarce.** Crude, **Abt. Fine. ($50-Up)**

4568 **1857, 1858, 1860. Rupia.** Cr. 364. **VF, F, XF. 3 Pcs. (——)**
Pedro V, 1853-61. Bust/"RUPIA GOA" in two lines in wreath. The 1860 is bright and lustrous, with very slight discolor, and weak centers, particularly on reverse.

An exceptional example!! From the H.D. Gibbs collection, with Gibbs' envelope explaining that he got it from the Charles Clapp collection. Some trifling verdigris on the rev. Of the 43 letters in the legends, 34 are bold and only two are illegible. Over ⅔ of the outer beading is present. Obverse: A monogram, apparently crossed J's, each crowned. A lis above and below, "F" and "IIII" to left and right (a small "o" above "IIII"). A small dot in the center. All in a beaded circle. "+CAROLVS. ET. IhOANNAR.RE.ESPS." Reverse: Crowned pillars of Hercules, a fragmentary third pillar to the left (not the result of double-striking). "S" and "P" to left and right, a large dot above each letter. Three circles below. A small center dot. All in a beaded circle. "+CAROLVS.ET (Ih) OANA.RAEGES.ISP." The legend stops as on obv. Doubtless this is one of the finest known of any variety.

SERBIA

Rare Gold Medal — Discovery Piece

4613A **N.D. (Ca. 1346). Stephan Dushan (Stephan Urosh IV), 1331-1355. Gold Medal, probably on coronation. 52mm., 23.72 grams. VF. (Photo)** **($——)**

Most probably of Stephan Dushan, as he was the greatest and most successful of the Serbian rulers of the Middle Ages. After deposing his father, Urosh III, in 1331 and having him strangled, Stephan set up, ca. 1346, a new court of purely Byzantine character, marked by extremes of ceremonial, etc. In 1353, he defeated Louis of Hungary and the Serbs seized Belgrade. In 1355, Stephan died while marching on Constantinople with the intention of overthrowing John V Paleologus, the Byzantine Emperor, and seizing the throne himself.

The piece itself is almost purely late Byzantine in style and fabric, having the thin flan and bending marks common to the larger gold medals of that period. The obverse shows Stephan being crowned by two angels, Christ as the Holy Spirit above, two crowned kings behind him offering homage, Patriarch to the right (Stephan

claimed to be Emperor of the Serbs, Greeks, Bulgars and Albanians, and he also set up a Serbian patriarchate in opposition to the Greek one). The obverse legend, in Serbian, apparently translates as "Stephan by the Grace of Christ Given Power (Crowned?) Czar of the Serbs." The reverse shows Christ enthroned in Byzantine style, IC - XC above, TH - H flanking (for Thessalonica Mint?), surrounded by a border of wreathed faces (Saints?), Serbian inscription around referring to Stephan, apparently, as "First Czar of the Serbian Land (Zemlaya)."
We have been unable to find **any** occurrence of this piece in any reference source or auction catalogue at our disposal, nor have we been able to elicit any information elsewhere. How such a piece survived unnoticed all these years surprises us! A small wrenched place at 12:00 at the very edge, attesting to removal of a loop, may indicate that the piece has been in non-numismatic channels until very recently. A superb opportunity for the world gold specialist or the student of Balkan numismatic history!

SEYCHELLES

4614 **1939. 25 Cents, Half Rupee, Rupee.** Y.2, 3, 4. **AU.** **($200-Up)**
Crowned bust of George VI/value in wreath. **The Half Rupee is a one-year type with 36,000 mintage.** Krause values are ridiculous; we sold proofs of these coins well over **double current Krause** in WR1. These three coins have frosty mint lustre, and are of "slider" quality.

SIERRA LEONE

4615 **1791. 50 Cents.** Cr.5. **Gilt Proof. Rare. (Photo)** **($900-Up)**
Lion/handshake. WR3 $1100, with very active underbidding. The gilt proof Dollar, probably no rarer, brought $2525, and a gilt proof 20 Cents $900. Sierra Leone coins have risen in popularity, partly because our Wayte Raymond sales have finally brought out some of the rarest varieties, but mainly due to the surging interest in anti-slavery pieces and African coins.

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

THE EXTREMELY RARE SIERRA LEONE PATTERN OF 1813-14

4625 **1791 (-dated, but struck late 1813 or early 1814). Pattern coin struck from the obverse die of the 1791 Fifty Cents and a newly-prepared Penny die antedated 1791.** Pridmore 19 (termed "extremely rare"), Remick pg. 500. **Bronzed Proof. ($500-Up)**

This rare variety was first reported by Pridmore in a Sept.-Nov. 1966 series in the Numismatic Circular. It was included in the 3rd (last) edition of Remick's book, described as a 50 cents/Penny mule, priced $125. However, an article by Pridmore and Vice in the July-August '75 Numismatic Circular re-classifies the piece as a pattern for a proposed coinage, made in late 1813 or early 1814. With the easing of the wartime naval conditions, it was again thought practicable and desirable to improve the colony's currency situation. Zachary Macauly, principal businessman in Sierra Leone and a former officer of the company, placed an order with Boulton's Soho Mint, specifying the design should be the same as before, but the weight lower. Later it was thought the old design was inappropriate for what had recently become a Crown colony, and a new design was employed. Of the 50 cents/Penny "mule", **Pridmore writes: "(I)t is extremely rare and only known to exist as a proof or pattern."**

Remick priced this piece at $125 in 1970, before its true status was known. By comparison, a regular Penny proof was listed at $28, and Pr. 22, a different mule with the Penny obverse die, cataloged $85 (an example was sold last June, dealer-to-dealer, for $175 in "shallow VF+, edge knocks"). Most Sierra Leone coins have brought 4-5 times Remick prices in our Wayte Raymond sales.

RARE SOUTH AFRICAN TOKENS
ORANGE FREE STATE EMERGENCY ISSUE

4628 **1867. 2 Shillings.** Town of Bloemfontein; Daniel & Hyman (merchants). Wayte Raymond #1, Maynard O-2. "Brassed Nickel". **Very Scarce. XF. (Photo) ($175-Up)**

Arms dividing "18-67", names of town and country ("Orange Vry Staat" was then independent)/Merchant's names, value. To supplant the paper then circulating in this specie-starved nation, Daniel & Hyman ordered and circulated £100 of these tokens, in values of 2/6, 2/, 1/, and 6d (from Birmingham). They were counterfeited, and thus soon recalled and destroyed. These are so rare that the Johannesburg Museum lacks the Shilling. Probably 1000 were struck of the 2 Shillings. Because of the metal, a somewhat mottled toning has developed, but the coin is attractive and very sharp. An "Abt. VF" piece brought $185 in the 7/8/78 Christensen sale.

4629 **N.d. (prob. 1913). Orange Free State (Province). Jagersfontein Municipal token** for **3 gallons of water.** Maynard 0-49. **Very scarce. VF+. (Photo) ($75-Up)**

Municipal arms supported by emus, "Excelsior" and "Peace & Prosperity" on ribbons/"value". This hamlet sprung up around a mine; the tokens were used in water dispensing machines in the streets (like parking meters). They became very worn, and we know of no previous U.S. sales record. Edge nick 4:30 obverse.

4630 **N.d. (1900). Transvaal. Boer War Necessity 1 Gulden. Abt. XF. (Photo) ($250-Up)**

Religious slogan/value. The only reference to this piece we found was the 11/19/60 Schulman catalogue of Gibb's Emergency Coins **(this piece may be better classed as a coin).** Presumably rare, **we have traced only three specimens;** 1) the badly damaged Gibbs coin (sold in the 9/21/78 Lepczyk sale for $100-tie bid); 2) N.Y.C. private collection; and 3) the present lot. As this is four or five grades better than the Gibbs piece (auctioned for $100), Our estimate may be low.

4631 **1874. Orange Free State. Pattern Penny.** Wayte Raymond 3, Kaplan 24, Remick T1, Friedberg 1. **Rare Proof. (Photo) ($125-Up)**

Tree and 3 powderhorns/value and date in wreath. **Cheapest coin of country,** as even the Raymond-listed tokens are now selling well over $200 (circulated). Remick $160 in 1970, thus undervalued today. Obverse reddish-orange, reverse similar but deeper color.

4632 **1888. Orange Free State. Pattern Penny.** Raymond 5, Remick T2, Fr.3. Rare. **Proof. (Photo) ($125-Up)**

Arms/value wreath. **Remick priced this at $135 almost a decade ago.** Some minor spotting, otherwise a choice, nicely toned proof.

The 1931 copper Proofs were all very carefully lacquered long ago, probably in the 1930's. This was a common practice in those days, especially for copper Proofs, since in the days before air conditioning such pieces corroded rapidly in summer if left unprotected. The lacquer, thin, transparent and fragile, has chipped or flaked in a few spots, producing small dark spots where the underlying coin was exposed to air.

Louis I, 1724. Cross, castles and lions/pillars over waves. Louis I briefly usurped the Spanish throne, in the middle of the long reign of Philip V. The reverse is somewhat double-struck, obscuring the lower half of the "5" in date. There is a trace of lighter gold color on the upper rim, suggesting the coin was once mounted. The remarkable feature of this coin is that the first half of the word "LVDOVICYS" is present. Many coins of Louis, of all denominations, are attributed to his reign by their date only, or by the inclusion of the "CVS" in the obverse legend. This specimen shows LVDO very clearly, as well as some of the following VI. As the King's name is the most important feature of the coin, and as the "damage" is minimal, even debatable, we anticipate strong bidding for this classic rarity of the Spanish World.

4677 **1746. Proclamation 4 Reales.** Nice **VG,** holed. **(Photo)** **($50-Up)**

4678 **1788-Sv/C. Gold ½ Escudo.** Cr. 51, Fr. 146. **Fine.** **($65-Up)**

Carlos III, 1759-88. Death-year coin. Bust/crowned, gartered arms. Scarcer date, according to Krause ($150 VF).

4679 **1789. Silver Proclamation Medal Of Carlos IV.** 29mm. **Fine+. (Photo)** **($75-Up)**

Laureate bust/the Dawn Star. Struck for Carmo in Vandalia (modern Carmona in Andalusia) Reverse legend translates: "As shines the Dawn Star (Lucifer) at daybreak, so shines Carmo in Vandalia." A few small nicks and a reverse planchet flaw. Doubtless quite rare in silver.

4680 **1801. Pattern 8 Reales.** By Droz. Copper. 39.5mm. **Unc. (Photo)** **($200-Up)**

Conjoined busts of Carlos IV and Queen (by Mariano G. Sepulusoa)/inscr. Struck to demonstrate the capabilities of Droz's coining process and solicit contracts. Unlike later pieces of similar intent, this is superbly designed. Inscriptions on edge and reverse refer to the perfection obtained "by a single strike" and the resulting security against forgery. An example in an early 70's Schulman sale brought $90. The Spanish market has been rewritten since then, so we expect a price several times higher.

4681 **1808. 2 Reales, proclamation of Fernando VII. Fine.** **($35-Up)**

Crowned, gartered arms, star and rays over monogram over double-F's and ordinal Madrid.

4682 **1812-Md/I. 8 Reales.** Cr. 136c. **Rare. VF.** **($100.-Up)**

Draped bust, head bare, legend spelled out fully/crowned arms. Type struck 1812-13, at Madrid only. Krause $250 in Fine.

STRAITS SETTLEMENTS

4690 **1845. 1 Cent.** Y. 3. Proof-only variety with "W.W." on truncation. Nice Bronzed Proof. **($70-Up)**

4691 **1845-1927. Collection of ¼ Cents thru 50 Cents. 83 different dates. Avg. XF, many Unc.** **($625-Up)**
Original prices total almost $800.

4692 **1871. 20 Cents.** Y. 15. **Rare date. XF+. (Photo)** **($350-Up)**
Victoria. Diademed bust/value. WR1 $300 in Abt. XF. Really nice and a good bet to exceed estimate.

4693 **1871. 20 Cents.** Y. 15. **Fine+.** **(——)**
First year of type. Mintage of 15,000 is the lowest for the country - this is probably the rarest regular-issue Straits coin.

4694 **1872. ¼-Cent. Proof. (Photo)** **($250-Up)**
Proof-only date. Krause $175. In WR3, the proof-only 1875 ¼ Cent (Krause $125) brought $230.

4695 **As last. Proof.** **($250-Up)**

4696 **1872. 1 Cent.** Y. 9. **Rare. Proof. (Photo)** **($200-Up)**
Proof-only date. Krause $175, thus probably worth $300. This specimen has a small edge nick at top of reverse.

4697 **1872-H. Cent.** Y. 9. **Impaired Proof. 1872-H. ½ Cent.** Y. 8. **VF-XF. 2 Pcs.** **($90-Up)**
Krause does not list proofs for this date. Has been cleaned and is now bright orange. Light surface marks. The ½ Cent is a scarce date.

4698 **1875. ½ Cent.** Y. 8. **Proof-only date. Choice, Bronzed Proof.** **($250-Up)**
Krause $160. Pridmore, Remick, etc., do not record any bronzed proofs for the Straits Settlements. Possibly quite rare with this finish.

4699 **1876-H. 10 Cents.** Y. 14. **Remick lists this as the scarcest date. Choice XF.** **($50-Up)**

4700 **1883. 5 Cents.** Y. 13. **Rare date. XF.** **($200-Up)**
Greatly undervalued in Krause. Remick prices almost as high as 1876-H 5 Cents, higher than all other 5 Cents. An 1873 5 Cents, Abt. VF, brought $245 in WR1. One of the crosses in the tiara is poorly struck up, otherwise the coin is quite a nice XF.

4701 **1887. 50 Cents.** Y. 16. **Unc. Prooflike strike. (Photo) ($200-Up)**
Victoria. Diademed bust/value. Wholly prooflike but with normal bag marks, as on most Unc. coins (particularly those of the Straits.) Quite well struck, particularly the edge dentilation and the reverse center. Proofs of this type (struck in 1886 and 1891 only) being so rare, and not struck in this year, we expect this piece to capture the imagination of a good many specialists.

RARE 1889 50 CENTS

4702 **1889. 50 Cents.** Y. 16. **Quite a rare date. VF. (Photo) ($175-Up)**
Could be graded higher, but softly struck. All details (jewels in tiara, etc.) are still clear. A tiny edge nick at 2:00 obverse, and a few tiny scratches. Krause $175 VF. The rare 1871 20 Cents catalogs only $150 in XF, but brought more than double that amount a year ago in WR1.

4703 **1905. 50 Cents.** Y. 23. Very scarce type. **Unc.** **($100-Up)**
Edward VII. Crowned bust/value. A choice AU in WR1 brought $85. We feel this type is undervalued.

4704 **1905. 50 Cents.** Y. 23. Scarce type and date. **AU.** **(——)**

SUDAN

4705 **(Late 1800's). Emergency 20 Piastres. Three different types.** **($50-Up)**

4710 **1793. Riksdaler.** Cr. 89, Dav. 1737. Sharp **XF.** **($200-Up)**
Gustaf IV Adolf, 1792-1809. Bust/crowned, garted arms in plain field. Some planchet adjustments on the neck. Has been cleaned, leaving hairlines. Krause $160 VF, $275 XF.

4711 **1794. Riksdaler.** Cr. 89, Dav. 1737. Type as above. **Unc. (Photo)** **($300-Up)**
Adjustment marks on hair, reverse center weak. Cabinet friction. Krause $250 in XF, but this is easily better.

4712 **1831. Pattern 1/6 Skilling.** Cf. Gluck. **VF. (Photo)** **($100-Up)**
Obverse as regular issue, Cr. 125a (nude bust). Reverse: (three crowns)/PRAGLINGS/FORSOK/1831/(crossed palms). Plain edge. The regular issue (dated 1832) with nude bust catalogs $70 (XF) in the normally conservative Krause. A very sharp coin for the grade.

4713 **1632-1832. Death of Gustavus Adolphus.** Bronze medals, 33mm and 34mm, by Kruger and Loos. **($40-Up)**
Both pieces with evangelistic themes appropriate to this ruler. The second piece bears a date, 1837 (error for 1832?).

4714 **1833. ⅛ Riksdaler.** Cr. 147. **XF. Plus second coin.** **($100-Up)**
Carl XIV, 1818-44, bust/crowned, gartered arms. Added: **1948 25 Ore,** Y. 65, Choice prooflike **Unc., from a specimen set.**

4715 **1834. ¼ Riksdaler.** Cr. 147. **Fine+.** **($50-Up)**

Oscar, 1844-59. Bust/crowned lions supporting crowned arms. **Krause $400 XF.**

4717 **1857. Riksdaler Species.** Cr. 197a, Dav. 355. **XF.** **($250-Up)**
Oscar, 1844-59. Goateed bust/lions supporting arms. Mottled toning. **Krause $325.**

4718 **As last. XF,** cleaned, tiny edge nicks. **(Photo)** **($200-Up)**

4719 **1864. Riksdaler Species (crown).** Y. 10. **F/VF.** **($75-Up)**
Carl XV, 1859-72. Head/lions supporting crowned arms. One of the few "common" dates of this type. All early Swedish crowns are scarce.

4720 **1864-ST. 4 Riksdaler.** Dav. 356. Y. 10. **XF. (Photo)** **($200-Up)**
Bust of Carl XV/Crowned shield supported by two crowned lions. Extremely scarce.

4721 **1897, 1962. Pair of commemorative coins.** Y. 31, 86. **Unc. 2 Pcs.** **($100-Up)**
1). 1897. 2 Kronor. Silver Jubilee. Light cabinet friction on reverse faint rubber band streaks on obverse. 2). 1962. 5 Kronor. 80th Birthday Krause $80.

4722 **1900. 2 Kronor.** Y. 30. An **unquestionable** and choice **Proof. (Photo)** **($1,000-Up)**

Oscar II, 1872-1907. Bust/lions supporting arms. Swedish proofs (not prooflikes) are seldom heard of, and this regular-issue coin, which is not even a first-year-of-issue coin, must be excessively rare. Perhaps struck to mark the new century? Krause prices this at $300 Unc., with other dates in the series up to $900 (mintage 49,000). Surely this is far rarer then any date in mint state. A price realization of double estimate would not shock us, so beautiful is this coin.

4723 **1933. 5 Ore.** Y. 46. **Rare date and grade. Unc. (Photo)** **($100-Up)**

Krause only $35, but there are several dates in this series worth five times catalog (or more). A bit mishandled, showing tiny spots, but not enough to downgrade to AU.

4724 **1947. Prooflike Set.** **($125-Up)**

1, 2, 5 Ore, steel, Y. 69-71. 10, 25, 50 Ore, nickel-bronze, Y. 55-57. 10, 25, 50 Ore, 1, 2 Kronor, silver, Y. 64-68. The nickel-bronze 50 Ore is only Unc., and the 50 Ore silver is dated 1946. The iron pieces are rusty. Krause $72 in Unc.; these should be worth almost double. WR1 $100. Note the "NCLT" section in Krause, wherein similar sets all have **estimated mintages of 45.**

4725 **1947. Set as last.** **($125-Up)**

4726 **1948, 1954. Krona.** Y. 67, 78. **1950. 1 Ore.** Y. 44. All loose pieces from collector specimen sets. Plus 1952 coins, **Unc.** **($100-Up)**

The specimen coins are prooflike, easily distinguished from prooflike Unc. coins. The 1952 coins (25, 50 Ore, 2 Kronor) are Choice and scarce (Krause $44 for the trio).

4727 **1954, 1955, 1956. Year sets.** Also **1952 25, 50 Ore, 2 Kronor.** All **Unc.,** most of the silvers are prooflike **Unc.** Krause prices total $190. **($150-Up)**

Y. 72-79. The 1954 5 Kronor, Y. 80, is included.

SWITZERLAND

4729 **1797. Bern, ¼ Thaler.** Cr. 31a. **VF+.** **($85-Up)**

Arms/cross made of 8 B's. One-year type. Krause $75 VF, $125 XF. Larger reverse letters and much smaller date than the dies of the Krause plate coin.

4730 **N.d. (late 1700's) Beromunster Michaelspfennig.** Silver. Inwyler 49. **Choice XF** or better. **(Photo)** **($200-Up)**

Arms, latin legend translating: "Bero, Count of Lensburg, founder of the church at Beromunster"/St. Michael brutalizing recumbert Satan, "College Beromunster in gratitude to its benefactors." Cf. Inwyler, **Die Michelspfit,** etc., Geneva, 1898 (RSN offprint). Signed S.B. F. for Sebastian Burger, doubtless the uncle of Samuel Burger, who is mentioned by Forrer. 13.76gms, edge milled diagonally right.

These Michelspfennings (and ½ Michelspfennigs) were struck for over a century. All struck on a half-thaler standard, the issues were so small as to limit their circulation, and were probably given to wealthy benefactors, not its students. As such, this is a more rare school piece, and we think a lovelier and more interesting piece as well. Of course, all Beromunster pieces are rare.

A much commoner 18th century schoolprize Thaler (Berne), not nearly as choice as this piece, brought $150 in WR3, This piece might well be worth more than double.

URUGUAY

AN EXCEPTIONAL GROUP OF EARLY URUGUAYAN COINS

(Note: Coins with obverse and reverse dies rotated 180 degrees-as is normal for coins-are described as "Coin axis". Unrotated pieces are termed "medal axis).

4781 **1840. 20 Centesimos.** Y. 2. Brown **Unc. Rare condition. (Photo)** **($300-Up)**

Mintage only 2, 125! Considered a subtype, as the weight is ⅓ greater than for all other years. Fully glossy surfaces, unpriced in Krause in this grade. Planchet occlusions on the edge at 6:00 and 9:00 obverse; other edge flaws all minor and as struck. A light stain on "EPUB" and a small, very light patch of discoloration at 3:00 reverse. Nicely struck, with no flaws except those on edges. Really pleasing. Reconsigned to us after bringing $325 in WR1. In intervening year, the Krause price has gone from $125 in XF to $200, so our estimate should be $100-200 low.

4782 **1840. 20 Centesimos.** Y. 2. **XF, exceptionally well struck. (Photo)** **($150-Up)**

A few planchet flaws, and two **tiny** edge nicks at about 3:30 reverse. Faint scratches at top reverse. Even the borders are struck up on this lovely piece, with most of the dots distinct. Krause $200 XF. Medal axis.

4783 **1840. 20 Centesimos.** Y. 2. **Abt. XF.** **($100-Up)**

Very nicely struck on a **perfect** planchet. A bit of loose dirt and some really minor edge nicks. Lovely brown color. Krause $100 VF. Medal axis.

4784 **1840. 20 Centesimos.** Y. 2. **VF+.** **($45-Up)**

Nice strike and planchet. **Mintage only 2,125.** A few small obverse edge nicks. The reverse has normal edge nicks and some scratches. Dark surfaces.

4785 **1843 (over 40) 20 Centesimos.** Y. 2. 1. **Abt. VF.** **($60-Up)**

Rather nice planchet and strike. Some tiny to moderate edge nicks, but over all, coin is at least a Fine. Krause $115 in VF, consignor valued at $100.

RARE 1844 20 CENTESIMOS

4786 1844. **20 Centesimos.** Y. 2. 1. (weight reduced from 1840 issue). **Very Rare Date, Abt. XF. (Photo)** **($450-Up)**

Krause $700 XF. The Unc. specimen in WR1 brought $1250. Nicely struck. Light porousity and a few very tiny edge flaws, but still a nice planchet for type. Some loose dirt in the devices. Really nice surfaces and color. The inside of the "0" in "20" has been smoothed (removing most of the background of horizontal lines), causing us to lower our estimate by $150.

4787 **1844. 20 Centesimos.** Y. 2. 1. **Rare date.** Nice **VG.** **($90-Up)**

A comparable coin brought $110 in VG in WR1 (despite current Krause listing of only $125 Fine).

4788 **1844. 40 Centesimos.** Y. 3. **Choice VF+. (Photo)** **($——)**

A pair of edge nicks, and a few minor planchet defects on or near the edges. A little weak at top obverse. Krause $250 VF.

4789 **1844. 40 Centesimos.** Y. 3. **VF. (Photo)** **($200-Up)**

Actually XF, with nice edges, but a little weak in places, and with small pits in the planchet. Krause 250 VF, and this is worth the full VF price. Coin axis. 33.39gms.

VERY RARE "FEMALE SUNFACE" COINAGE

4790 **1844. 40 Centesimos. Type with Female sunface. Less than 50 known!** Y. 3a-unpriced in Krause. **VF. (Photo) ($——)**

The " Cabellera" type. Actually almost XF, free of edge nicks, but not a good planchet, causing some details to be poorly struck up. Coin axis. Possibly the first time one of these rarities has reached the auction. Should realize about $2000. 36.40gms.

4791 **1844. 40 Centesimos.** Type with Female Sunface. Same comments as above. Y. 3a. **VG/F. (Photo) ($——)**

Medal axis, Technically VF-XF, but obverse legend weakly struck, and small planchet pits. A few minor edge nicks, a small edge nick at 3:00 obverse, and a moderate to heavy bruise at 12:30 obverse. Clashed die evident on obverse. Worth well over $1000, perhaps $2000. 33.24gms.

4792 **As last.** A third and final "Cabellera". **AG/VG. (Photo) ($400-Up)**

Medal axis. Relatively few edge nicks, but a poor planchet. All these cabelleras are from a single die pair. When one considers how many dies were used for the 1844 40C. coinage, which today is so scarce, one realizes just how rare pieces from each die pair must be. 30.70gms.

ONE OF THREE KNOWN
-THE ONLY COLLECTIBLE PIECE-

4793 **1844. 40 Centesimos. The "Bombe" type.** Not in Krause. **VF-XF** as struck. **(Photo) ($2,000-Up)**

Design similar to the regular 40 Centesimos, but broader (39mm) dies on a broader flan (41mm). The dies bulge in the centers, and are poorly made, so that the sunface is very weak, and the rays thus resemble an explosion. Only three pieces are known: 1) Central Bank of Uruguay; 2) Banco Commercial; 3) This example. **This piece will be the plate coin in the new Uruguayan catalog.** There are a few small edge nicks, some central planchet porousity, and an edge flaw at 7:00 reverse. 41.635gms. The Metrology suggests this may have been the first issue of 40 Centesimos, at a time when the minters intended the coin to be double the weight of the 20 Centesimos.

RARE SIEGE OF MONTEVIDEO 1844 PESO.

4794 **1844. 1 Peso,** W. Raymond 1; Y. 10. Shield within wreath/ "SITIO DE MONTEVIDEO" etc. around star design. 4795 **1844. Montevideo Peso.** Y. 10. Rare. Nice **VF** or better. **(Photo) ($500-Up)**

Arms in oak wreath/legend. Floral edge. Coin axis. **Mintage 1500.** One of the most popular world crowns.

4796 **1844. Another Peso.** Y. 10. **VF+.(Photo)** (——)
Coin axis. A couple minor taps on the edges, but nicely toned and a nice, VF coin on balance.

4797 **1854.** (over ??). **5 Centesimos.** Y. 1. **XF. (Photo)** **($100-Up)**
Dark brown, glossy surfaces. Peripheries weak. Edges not nicked, but ragged-looking due to die cracks.

4798 **1854. 20 Centesimos.** Small reverse design. Y. 2.2. **Fine** or better. **($50-Up)**
A comparable piece brought $50 in WR1.

4799 **1854. 20 Centesimos.** Small reverse design, Y. 2.2. **Fine** (WR1 $60). **($50-Up)**

4800 **1855. 5 Centesimos.** Y. 1a. **Rare subtype. Choice XF.** Krause $500. **(Photo)** **($350-Up)**
Similar to earlier years, but with a larger sunface. Some golden color on obverse-not luster. Coins of this year are said to contain gold.

4801 **1855. 5 Centesimos.** Y. 1a. **Fine.** **($150-Up)**
Subtype with larger sunface. Very little actual wear and no planchet defects. However, the planchet is porous over the entire surface, and the reverse center is very weak. There is a slight edge knock at bottom obverse. Although technically an XF coin, we feel this is worth "Fine" at best. The consignor felt this piece was worth $250.

4802 **1855. 20 Centesimos.** Y. 2.3. **VF.** **($75-Up)**
Dark, glossy patination, a few rim bumps or flaws. Worth the price of a Fine.

4803 **1855. 20 Centesimos.** Y. 2. 3. (large reverse design). **Fine+** (Krause $135 VF). **($90-Up)**

4804 **1857-D. 5 Centesimos.** Y. 4. Choice Brown **Unc.** Krause $70. **($65-Up)**

4810 **1877. Peso.** Y. 14. Nice, fully Brilliant **Unc. (Photo)** **($300-Up)**
Arms/value in wreath. Perfectly struck, partial wire edge. What your Morgan dollar specialist calls MS65 (+). Krause $200. A nice piece in our June, '77 McNally sale brought $280.

4811 **1877. Peso.** Y.14. **Abt. XF.** **($60-Up)**

4812 **1878. Peso.** Y. 14. **Rare date. VF. (Photo)** **($150-Up)**
A rather poor surface, suggesting the coin was in the ground or water. Cleaned, and some tooling in the reverse fields, probably to remove stubborn corrosion. A sharp coin that is quite attractive enough in a display case, etc., and our estimate is probably too low.

VERY RARE DATE

Struck from dies prepared from a genuine coin. Reportedly made in Department of Paysandu in 1895. Cleaned, edge knock.

4822 **1901-1942. Lot of four errors, one silver.** **($100-Up)**
1) 1901. 2c. Struck 15% off-center. Fine. 2) 1924. 2c. **Full brockage** (normal obverse/incuse, retrograde obverse). Unc. 3) 1924. 2c. **Partial brockage** (quite rare). Normal reverse. Half of obverse normal, half shows incuse (+ retrograde) reverse design. XF. 4) 1942. 20c. 20% off-center. Unc.

4823 **1916, 1917. 50 Centesimos.** Y. 22. Choice pair. **($100-Up)**
Bust of Artigas/arms. 1916 AU. 1917 Unc., nicely toned, centers purple and peripheries green-gold. (WR1 $70-same coin, reconsigned).

4824 **1917. 50 Centesimos.** Y. 22. Rare striking error. **XF. (Photo)** **($——)**
The coin struck immediately before this piece was not ejected completely. Thus, only ¾ of the surface of the next planchet came in contact with the obverse die, the other ¼ receiving an incuse, retrograde impression off the reverse of the non-ejected coin. The edge and reverse are essentially normal.

4825 **1917. Peso.** Bust of Artigas. Y. 23. **XF.** Krause $70. **($50-Up)**

VENEZUELA

4831 **1812-1818. Lot of 4 early coppers.** **($85-Up)**
1) **Prov. of Guayana. ½ Real. 1814.** Cr. 41. Crude **VF.** 2-3) ¼ Real. Cr. 2. **1817,** small date, **F** and **F+.** 4) **Cartegena** (Colombia. Apparently circulated in Venezuela). **½ Real. 1812. VF,** part weak, all but two letters and numerals bold (date clear).

4832 **1812. Quarter Real,** copper. Cr. 22. **F+,** wavy planchet, weak. **($60-Up)**

THE VERY RARE ANGOSTURA 1 REAL

4833 **ca. 1813. Copper 1 Real. Angostura.** Gibbs 1050. Not in Stohr or Craig. **Very Rare. XF** (crude). **(Photo)** **($350-Up)**
Monogram (PLVS OR PHILLIPVS) in circle of dots/cross crosslet in plain field. No date or value expressed. Struck over a Cartagena ½ Real. Some green salts encrusted on 15% of obverse. This coin definitely belongs to the Angostura series which apparently preceded by a few months the "Provincia de Guyana" ½ and ¼ Reals (copper) dated 1813-17. A few specimens show blundered dates ("800", "100"). It is much scarcer than the 2 Reales, a choice example of which brought $260 in WR1 (later appearing at $350 on a dealer list). We know of only one specimen outside the ANS, although an example in Schulman's Lee sale (1958) can also be cited. 4 Reales are also known as part of this series. The actual value in circulation of these types is an open question.
Studies of the Venezuelan coinage of this period are in their infancy. A few collectors have unpublished pieces about which little of certainty can be stated. Other rare coins have been misidentified (e.g. a copper ⅛ Real, attributed to Maracaibo by Ray Byrne, is described by the turn-of-the-Century author Rosales, and attributed to Margarita). We think it would be wise to add these to one's collection before they are better-known, particularly in the case of these very distinctive Angostura coins.

4834 **1814. Copper ¼ Real.** Province of Guayana. Cr. 41. **XF. (Photo)** **($75-Up)**
Lion, "F.VII. AND DE 1814."/ "½" and castle, "PROVINCIA.DE-GUAINA". Small, light scrape on reverse, barely seen. Nice, smooth glossy brown surfaces. All detail and lettering on a planchet and struck up. **Much better than Krause's photo.** Formerly quite rare, will probably become so again, after the Byrne collection specimens are absorbed.

4835 **1818. Copper ¼ Real.** Cr. 2. Stohr 8. **Unlisted rariety. XF. (Photo)** **($75-Up)**
Large 8's in date, **"D" on obverse rectrograde.** Stohr rarities: Crown XX, oval III, cross VII, lion VI, wreath (obv.) XIX, wreath (rev.) VII. Minor weakness to strike.

4836 **1918. 2 Reales.** Cr. 6. Stohr. 11. **VF.** **($50-Up)**

4837 **2 Reales.** Cr. 6. **1818,** 2 pcs, **VG. 1819,** sharp **VF** but bent, and **VG+** with mount mark. **4 Pcs.** **($75-Up)**

RARE COMPLETE SET OF COUNTERMARKED ¼-REALS

4838 **(ca. 1818-20). 1814 ¼-Real, Cr. 2, Cstpd. "arabic in rectangular indent".** Stohr R I 21, type of Gibbs 1060 and Duffield 946. **Very Scarce Date. Coin Fine, stamp clear and complete.** **($150-Up)**

We recently examined a couple dozen of these interesting specimens, in both public and private collections, and have reached some new conclusions. From the known dates—1814, 16, 17, and 1818, (Stohr R I 21-24)—and their grading characteristics, we have dated the countermark to 1818-20. I.e., after the pre-1814 coins were already rare, and before the 1821 ¼-Reals were in circulation and so countermarked, a "mintage" which precludes usage within a small community as a token. A general-currency use seems to have been intended (similar to Morelos' validating countermarks on Mexican coins), possibly as an official issue of Indepedence forces. We feel these coins merit inclusion in standard catalogs as a currency subtype of Craig #2.

4839 **(ca. 1818-20) Cstp. as above on 1816 ¼-Real.** Stohr R I 22. **Coin Fine, bent from stamping; stamp bold, 90% complete.** **($50-Up)**

A comparable piece of this date brought $60 in WR1.

4840 **(ca. 1818-20). Cstp. as above on 1817 (sm. date) ¼-Real. VG or better.** **($35-Up)**

4841 **(ca. 1818-20). Cstp. as above on 1817 (lg. date) ¼-Real.** Stohr R I 23. **VF,** minor edge clip. **($60-Up)**

4842 **(ca. 1818-20). Cstp. as above on 1818 ¼-Real.** Stohr R I 24. **F-VF.** **($45-Up)**

4843 **1852. 1 Centavo.** Y. 6, Stohr 24. **Unc., Abt. Fine. 2 Pcs.** **($200-Up)**

WR1 $270 (Gem Unc.). Obverse beautifully toned, reverse red with slight finger-printing.

RARE DOUBLE-REVERSE ESSAYS OF 1852

4844 No lot.

Several of these very interesting pieces were offered in WR1, bringing $310 to $430. At that time we discussed them in depth, so readers are referred to the WR1 catalog. These are from a different source than the WR1 coins.

All six pieces offered below are brilliant, carefully-preserved specimens.

4845 **1852. Pattern Centavo.** Stohr E12a. Copper-nickel. Nice **Proof.** **($300-Up)**

"I/CENTAVO/1852" in wreath. Reverse identical. Plain edge. 31½mm (larger than the 30.5mm size Stohr indicates).

4846 **As last. Proof,** very nearly as nice. **($290-Up)**

4847 **1852. Pattern Centavo.** Stohr E12a. Copper-nickel. Variety of the above two lots. **Proof.** **($300-Up)**

As last, but 30½mm, thicker "1" and taller date. WR1 $330.

4848 **As last. Proof.** **($300-Up)**

4849 **As last** but struck in **copper.** 30½mm. Stohr E12c. Nice **Proof.** (Brilliant). WR1 $430. **($350-Up)**

4850 **As last,** equally nice. **($350-Up)**

4851 **1852. 1 Centavo.** Regular issue? Y. 3, Stohr 21. Sharp, Brilliant **Unc.** **($250-Up)**

Plain edge. Weight 14.9 gm, not 11.4 as cited in Stohr. Small cut on bottom edge, not visible from faces. Stohr prices this only 10% below the 1843 of this type. In WR1, an 1852 Centavo, Y. 6, Gem Unc., brought $270 (Stohr $70 Unc.). The 1852 Centavo, Y. 3, lists 3½ times higher in Stohr ($250 Unc.).

4852 **(1854-). Order of the Bust of Bolivar.** Werlich p. 442, fig. 1324. **AU. (Photo)** **($——)**

Gilt silver, blue enamel around Bolivar portrait. Military bust/nat'l arms. 28 rays around central oval. Quite lovely. Order created in 1854.

4853 **1857. Brass ¼ Real Token.** Andres Perez of Montalban. Fonr. 8027. Stohr FM 32. Rooster/value. **Unc.,** light handling. Plus **five coins,** 1858 (2-1927. **6 Pcs.** **($——)**

4854 **1858. 1 Centavo.** Y. 7 (var. with LIBERTAD **incuse**). Stohr 29. **Struck in copper-nickel** (Stohr E15a). **Unc. (Photo)** **($——)**

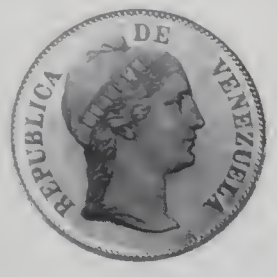
Plain edge. Rather hairlined and with considerable cabinet friction on obverse. **Probably quite rare in this metal,** and obviously not a recent Heaton Mint release. May approach four figures.

4855 **1858. 1 Centavo,** as last. Struck in copper, **thin flan and plain edge.** Brilliant and Prooflike. **(Photo)** **($——)**

Weighs only, compared to 7.50gm for the engrailed edge currency issues. The planchet was a little dirty, making the coin show some "tarnish". The reverse die has a bad crack.

4856 **1858. 1 Centavo.** Y. 7 (var. with LIBERTAD **incuse**). Stohr 29. Nice **Proof,** mostly brilliant but partly red. **($150-Up)**

4857 **As last, Unc.,** prooflike, mostly red. **($75-Up)**



4858 **1858. 1 Centavo.** Y. 7 (var. with LIBERTAD **in relief**). Stohr 30. Very Choice Red **Unc. (Photo)** **($100-Up)**

4859 **As last, Unc.,** nearly as nice. **($85-Up)**

4860 **As last.** Brown **Unc.** **($60-Up)**
A bit "oily" from the deterioration of the infernal vinyl "flip".

4861 No lot

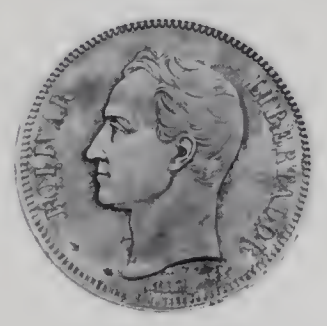
4862 **1863. Pattern 2 Centavos.** "Paez" type. Copper. Stohr E22 **Rare.** Nice **Unc.,** some red. **(Photo)** **($500-Up)**
Head of Gen. Jose Antonio Paez/value and date in wreath, "E" (for Essai) at bottom. Doubtless a Paris mint product, by Barre, as is the similar 10 Reales of 1863 (Stohr p.50 #31). Estimated very low in relation to other copper patterns, which are not so important historically.

4863 **1873. 50 Centavos.** Y. 15, Stohr 35. **F/VF.** **($120-Up)**
Stohr values this date about 20% higher than others (1874 & 1876) of the type.

4864 **1874. 10 Centavos.** Y. 13. Stohr 33. **VF-XF.** **($100-Up)**
Some light, spotty tarnish.

4865 **As last. Fine+.** Plus second piece. **($75-Up)**
The second coin is in similar condition, but with an attempted (nearly successful) hole.

4866 **1874. 20 Centavos.** Y. 14, Stohr 34. **VF-XF,** very tiny edge nick. **($75-Up)**



4867 **1874. 50 Centavos.** Y. 15, Stohr 35. **XF-AU. (Photo)** **($350-Up)**

4868 **As last. Fine.** **($80-Up)**

Please note that a 5% buyers charge will be added to each lot purchased on all purchases.

GOLD COINS OF VENEZUELA

(We feel these are extremely underrated, in comparison with all other Venezuelan coins, and with world gold coins in general. For example, Krause lists the 100 Bolivares at $300 VF, $750 Unc. Only 10,000 were struck in two of the four years of this type. But then, U.S. $20 Gold pieces cost under $50 twelve years ago . . .)

4869 **1875. 5 Venezolanos=25 Bolivares. Gold.** Y. 17, Stohr 37, Fr. 4. **XF-AU. (Photo)** **($500-Up)**
Mintage only 69,200. Stohr (1975) $350 XF, $420 AU.

4870 **1879. 20 Bolivares. Gold.** Y. 32, Stohr 45, Fr. 5. **XF.** **($150-Up)**
First year and lowest mintage (41,000) of type.

4871 **As last. VF/XF.** **($125-Up)**

4873 **1886. 20 Bolivares. Gold.** Y. 32, Stohr 50, Fr. 5. **XF+.** **($175-Up)**
Mintage only 50,000. Some weakness on the ribbon, or would grade higher. Highest catalog value in Stohr ($180 AU).

4874 **As last. Abt. XF,** small edge nick. **($125-Up)**

4875 **1886. 100 Bolivares. Gold.** Y. 33, Stohr 51, Fr. 2 ($750). Mintage 10,000. **XF.** **($700-Up)**
Very similar to the silver 5 Bolivares, but Bolivar facing right. Contain 97% as much gold as a U.S. $20. Stohr $650 (in 1975).

4876 **1886. 100 Bolivares. Gold.** Fr, 2. **XF.** **(——)**

4877 **1887. 100 Bolivares. Gold.** Mintage only 30,000. **VF.** or better. **($450-Up)**

4885 **1876. 50 Centavos.** Y. 15, Stohr 35. **XF.** **($275-Up)**
Faint scratch over "LEI" on lower reverse.

4886 **As last. Fine+.** **($100-Up)**

4887 **1876. 5 Centavos.** Y. 12. **2 pcs, Abt. F** and **VG.** **($65-Up)**
Scarcer than the 1874 date (despite Krause valuations).

4888 **1876. 10 Centavos.** Y. 13, Stohr 33. **VF/XF.** **($50-Up)**
Obverse fields heavily tooled (to remove brooch?). Whole coin has a lightly pitted, ex-jewelry surface. **Much scarcer than the 1874 date.**

4889 **1879. 2 Bolivares.** Y. 23. **VF+. (Photo)** **($250-Up)**
Lightly cleaned. WR1 $350 (AXF). Krause is characteristically ridiculous at $60 VF, $115 XF.

4890 **1888-1936. 5 Bolivares.** Y. 24. **5 different. VG** to **XF-AU. ($100-Up)**

1888 G/F. 1910 VF. 1911 VF, rather scuffed surfaces. 1912 Abt. Fine. 1936 XF-AU.

4891 **1891-1947. Lot of four medals. F-XF. ($40-Up)**

Includes a crude (XF) but interesting suspension medal, dated 1891, for the Southwest Railroad of Venezuela.

4893 **1900. ¼ Bolivar.** Y. 20. **AU/Unc.,** very choice. **(Photo) ($150-Up)**

4894 **As last. XF+,** three light nicks behind neck, very tiny edge nick 7:00 reverse. **($90-Up)**

4895 **1901. ¼ Bolivar.** Y. 20. **Scarcest date. Unc. (Photo) ($200-Up)**

Stohr gives mintages of 407,000 for 1900, 393,000 for 1901, and values 1901 25% higher in Unc. Rainbow toning both sides, very tiny edge nick 12:00 reverse.

4896 **1901. 5 Bolivares.** Y. 24. **Unc. (Photo) ($225-Up)**

Dull, grey tone, fairly pronounced cabinet friction. Should sell for an XF-AU price (or better). In WR3, the much-commoner 1900 (mintage 270,000 vs. 90,000), graded VF+/XF, brought $270!

4897 **1901. 5 Bolivares.** Y. 24. **F+. (——)**

4898 **1904. 5 Bolivares.** Y. 24. **AU. ($200-Up)**

Tiny tarnish spot on "R" of "LIBER . . ." Will probably "dip off". Stohr (1975) $150.

4899 **1911-1926. 1 Bolivar.** Y. 22. 1911 **VF-XF, F-VF** with obv. scratches. 1921 **F.** 1926 **VF. 4 Pcs. ($65-Up)**

EXTREMELY RARE 1930 PATTERN
5 BOLIVARES
OBVERSE AND REVERSE DIES
BY KARL GOETZ

4905 **1930. Obverse and reverse dies for Karl Goetz' Pattern 5 Bolivares.** 36mm. Stohr E50, Keinsat 424. **Extremely Rare coins.** Dies in excellent condition, collar included. **(Photo) (——)**

Obverse: Facing bust (in style of German general) of the dictator Gomez Legend (around top edge): "BENEMERITO.GENERAL-.JUAN.V.GOMEZ". Within, a second line. "PAZ.Y——TRA-BAJO". Reverse: Arms between cornucopia. "1930" above arms. Around top edge. ESTADOS UNIDOS DEVENEZUELA", and at bottom "GRAM 25-LEI 900". A ribbon draped onto the cornucopiae reads: "INDEPEND 5 DE JULIO. 1811 LIBERTAD 3 DE APRIL, 1861".

This pattern is discussed in Kienast's **"The Medals of Karl Goetz"**, pg. 46 (where illustrated). It has been speculated that Gomez used these pieces as presentation pieces.
Obviously of extremely high value, as either a Goetz item, or as Venezuelan numismatica, we are unable to estimate this lot.
